RUSTARRESTER™

Rust Conversion Coating

A water-based, latex resin emulsion which is formulated to convert rust to a stable iron complex, thus stopping the rusting process.

FEATURES/BENEFITS

Easy to use	Remove loose rust, then brush, roll, or spray on rusted surfaces.
One step process	Eliminates acidizing, sandblasting, grinding, and scraping.
Stops rust	Chemically converts existing rust into a moisture-free, black protective coating.
Prevents future rusting	Polymeric formula forms an oxidation-resistant coating.
Excellent primer	May be painted over without further surface preparation.
Non-flammable	Water-based emulsion makes the product non-flammable.

APPLICATIONS:

Pipes; valves; and fittings; in refineries, tankers, powerplants, domestic and commercial heating/ cooling plants. Use also on trailers, storage tanks, fences, guard rails, conveyors, supports, overhead cranes, booms, floor grating, duct work, outdoor advertising sign supports/frames, municipal and highway sign posts and frames, bulkheads, decks, hatch covers, stacks on ships, agricultural equipment, snow removal equipment, and automobile repair shops.

SPECIFICATIONS:

Physical form	Slightly thick, water emulsion liquid
Color	Opaque, off-white
Odor	Latex resin
pH (concentrate)	2.0 -2.5
Density-Specific Gravity	9.5 lbs./gal.-1.140
Flash Point (TCC)	None
Shelf Life	1 year minimum
D.O.T Shipping Label	None

PACKAGING:

1 gallon per bottle
4 bottles per case
