SANITARY SPRAY LUBRICANT

Food Processing Equipment Lubricant

Sanitary Spray Lubricant is formulated with the finest U.S.P.-grade mineral oil for use primarily as a lubricant for food processing equipment.

FEATURES/BENEFITS:

Lubrication	Sanitary Spray Lubricant has excellent lubricating properties for all types of mechanisms. Remains fluid as low as -5° F.
High Purity	Ingredients are odorless, tasteless and colorless. It does not contain any unsaturated, aromatic or silicone compounds.
Usda Applicable	It is acceptable for use in federally-inspected meat and poultry processing plants as a lubricant with incidental food contact.

APPLICATIONS:

Sanitary Spray Lubricant leaves an almost invisible film which has excellent lubricating properties and water repellency. Ideal for: Bakeries Eating Establishments, Meat Packing Plants, Dairy Farms, Food Preparation & Manufacturing, Poultry & Fish Packing Plants
