*AN Aerosol Penetrant that Lubricants, Displaces Moisture and Retards Corrosion*

An aerosol penetrant, light-duty lubricant, moisture displacer, and short-term corrosion preventer. A blend of solvents, mineral oils, wetting and penetrating agents, drying agents and protectants.

## FEATURES/BENEFITS:

Convenient	Aerosol packaging allows use on small parts and for spot applications. Eliminates waste from drippage spills.
Penetrates	Quickly penetrates rust and corrosion. Loosens rust, frozen nuts, bolts and screws as well as other rust frozen parts.
Lubricates	Provides lubrication for ease of removal. Excellent light-duty lubrication of gears, chains, slides, and other sliding or turning parts.
Displaces moisture	Penetrates and displaces moisture, condensation, etc. Dries electrical components such as automotive distributors, wiring, motors, contact points, potentiometers, switches, etc.
Prevents corrosion	Provides short-term corrosion prevention to both ferrous and non-ferrous metals. Seals out moisture, air, and other corrosive elements.
USDA applicable	For use in federally inspected meat and poultry plants as a lubricant when there is no possibility of food contact.

NOTE: Spray is extremely flammable. Do not apply in presence of possible sources of ignition of residual liquid or vapors (such as active electrical circuits, switches, running motors or flames).

## APPLICATIONS:

Great for lubricating many different surfaces in business such as: Automotive Repair Shops, Fabricated Metal Shops, Motorcycle Dealers, Construction Companies, Industrial Machinery Manufacturers, New & Used Car Dealers, Electrical Contractors, Marine Products, Service Stations

## SPECIFICATIONS:

Physical Form	Aerosol (liquid)
Color	Amber
Odor	Solvent-like
Flammability	Flammable by CMSA Flame Extension
Shelf Life	1 Year Minimum
D.O.T. Shipping Label	ORM-D

## PACKAGING:

20 fl.oz.can
