

Instructions for the BLYC Launch Site – Gate Operation

- 1) Make sure you have the “MasterLock Vault” app active on your cell phone.
- 2) Make sure Bluetooth is turned “on” in the Settings area of your cell phone.
- 3) Launch the MasterLock app on your phone.
- 4) Hold your phone near the launch lockbox and press any key on the launch lockbox keypad.
- 5) Press the button on the MasterLock app (it is located towards the bottom of the screen) to unlock the lockbox.
- 6) Open the lockbox by flipping the keypad panel downwards towards you.
- 7) Once open, you will see a fob connected to a cable.
- 8) Extend the fob on the internal cable and touch it to the grey sensor located on the lockbox.
- 9) The gate will begin to open.
- 10) Please close the lockbox when finished.

When leaving the launch site, the gate will automatically open for you. Just pull your vehicle up near the gate and wait a few seconds for the gate to detect your car and it will begin to open. The gate will automatically shut behind you.
