The following information will be used for BLYC to issue "how-to" email instructions instructing users how-to download the **"Master Lock Vault"** commercial app on user's Bluetooth enabled smart phone. Check the following billing classification that applies:

( ) **"Commercial Vendors"** - Pay **an annual fee of \$500**. Applies to boat portering or seasonal pier installation/take-out services using pontoon-style barges which are less than 30' or weigh less than 8,000 pounds.

( ) **"Large Barge Contractors"** - Pay an initial **minimum annual fee of \$500**. These **"Large Barge"** vendors generally use larger barges greater than 30' for both seasonal pier, permanent pier, contracting and shoreline restoration services. After 2 daily uses, Large Barge vendors will be billed **\$200 per day** (via monthly billings) for access to the launch site.

Delivery of construction materials to the Beaver Lake Yacht Club are prohibited without a BLYC Member petitioning the board for a **"Special Use Construction Permit"** and paying a **\$5,000 fee**. This process allows Members to petition the board to explain the extenuating circumstances as to why they cannot use their own personal property for pier, shoreline, landscaping or construction material deliveries.
