

e-FORCE

Cleaner / Degreaser

- Non-Toxic
- Biodegradable
- Non-Butyl
- Non-Flammable
- Non-Hazardous

Suggested Dilution Control

DILUTION

10-12 oz per gal.

TYPE OF SOIL

Degreasing

Directions for General Use:

Apply solution using a wiper, mop, trigger sprayer, scrubber, or pressure washer. Let solution dwell 1-5 minutes (up to 5 minutes for areas with heavier soils or oils), wetting continuously. Rinse solution.

Directions for Parts Reconditioning:

Dilute suggested amount of solution into Reconditioning tank or appropriate container. Let parts dwell in solution. Times will vary depending on oiling or soiling of parts. Agitation may be necessary.

e-FORCE proves that a heavy duty cleaner / degreaser can be environmentally preferable, and still be effective when dealing with difficult oils and soils.

e-FORCE is a water-based, non-butyl cleaner / degreaser designed to emulsify:

- * Petroleum based soils
- * Soap Scum
- * Animal Fats
- * Vegetable Oils
- * Food Residues
- * Carbon and Coal Dust

e-FORCE works well on every day dirt, as well as hard to remove carbon and coal dust. e-FORCE contains no VOCs, or NTA / EDTA based chelating agents.
