### EXPERIENCE

---

Freelance Multimedia Artist – Full Time  
**Jun 2015 – Jan 2025**

I coordinate with clients to gather requirements for developing upcoming projects and making modifications on ongoing projects. My tasks in this role include storyboarding and brainstorming, video and design concepts, editing photos and videos, and collaborating with other artists to complete projects.

ThreatTec – Videographer – Full Time  
**Nov 2020 – Aug 2023**

As a Videographer, I was a member of a creative team developing training materials, demonstrations, and promotions to support the U.S. Army. My primary responsibilities included producing videos for the TRADOC G2 OE Enterprise G&V YouTube Channel, creating supporting graphics for promotions and presentations, and the set up and maintenance of video and audio equipment.

CGI Federal - Video Developer – Full Time  
**Sep 2018 – Mar 2020**

In my role as Video Developer, I was an integral member of a \$7.8 million government contract to develop a Phase I ATIS capability prototype. My primary responsibilities were to produce video demonstrations showing the features of the ATIS Prototype and creating supporting graphics for in-person presentations as the project progressed. I regularly planned video production schedules, recorded live video and audio, edited short and long form videos, and many other tasks in this role.
