The Game playing cards

Rules

Pick a player for Byte, (Byte's job is to hear each answered question and by chance give a score to each player's answer.)

Each player answers the 20 questions—one card at a time!

After each player answers the question, they move their picked symbol of themselves, (a symbol of their choice,) one square on the playing board of Gon.

After the 20 questions are answered, and the players make it to the field of the game, Byte reveals his score that he gave for each player's randomly answered questions.

Score of the pine branch
