Fax: 304-275-4834

The FRN is a local community organization charged with service coordination, needs and resource assessment, planning, community mobilization and evaluation. The Funding is through the Department of Health and Human Resources. The FRN is made up of families who utilize services, service providers, and community members who work together to better meet the needs of children and families in their local area. State government and local communities have recognized that by working together, they can produce results that far exceed what any one person or agency could accomplish on their own. Collaborative partnerships generate more resources, provide a pool of talented and inspired people, and allow the opportunity for sharing knowledge. When individual and groups work side-by-side, they have the capacity to ensure that services are not being duplicated and that no family or child falls through the cracks. If you would like to get involved please call Monday through Friday 9 am to 3 pm.
