

Pueblo Estates Light Fest on the Clubhouse Square

All the lights and decorations on the clubhouse square sure look nice and bright after all the elves did their magic. We had a great group of Pueblo Estates Volunteers that helped set up the Santa Village, Peace on Earth, the chapel, blow ups, all the lights and the front entrance lighting. Thank you to Eric for getting everything hooked up. The Light Fest in Pueblo Estates is a great tradition that has been possible because of generations of volunteers and looks like it will carry on into the future. We know many of you when asked where you live have heard the response - "That's where they have the great Christmas Lights".

Take Down of Decorations and Lights on Jan 9, 2021

We will join together at 9AM on the 9th to take down and put away all the decorations and lights. Come and join us for whatever time you can volunteer. Many hands make working a lot easier.

Hope you can come and join us next year on the 9th..
