

ABOUT LOTTERY

Events having major impacts:

1957 *Lottery begins the year 1957 when a United States foreign policy pronouncement, The Eisenhower Doctrine, was signed into law. Resulting in Middle Eastern Countries given no choice but to choose between the United States of America or Russia in which who will be supplying them with economic and Military aid. Iraq becomes an ally of Russia.

*In retaliation against America, the audience's will see and hear an Iraqi patriarch Abdullah, address his Progeny and orders family members to move to America. With one intent. Terrorism.

1957-1961 *After the family brings in an Iraqi English tutor named Ziad, we watch as the Iraqi children become much more fluent then their elders in learning the English language in preparation for their move to America. The children begin to tutor their elders.

1961 *The Iraqi cell begins their Exodus to America. They leave quietly, they arrive quietly. Hakim, Aban, Amira, Tawfeek, Hakim, Abido, Amirmoez, Darzi and Reheem settle in a Hard-working, beer drinking, steel working community.

*Song of the year, EXODUS.

1965 *The Seminal Immigration and Nationality Act of 1965 is signed into law by President Lyndon B. Johnson at the foot of the Statue of Liberty. These reforms opened doors and put on the fast track the opportunities needed for Aban and Hakeems families to obtain legal and permanent resident status in the United States. It also opened the doors to recruitment of future martyrs.

1967 *Abido, wife of Hakim, Delivers a baby boy, T. Ali Abdulla

1968 These terrorists will experience the exodus of the steel industry and lose their jobs just like everyone else in their community. Resulting in a new wave of social ills. Including alcoholism, domestic abuse, divorce, and no jobs to boot.

1970 *Aban, now 43 as is his wife Amira, son Tawfeek now 13, Hakeem, now 40 as is his wife Abido, their sons Amirmoez, now 20, his brothers Darzi 22 years old and T. Ali Abdulla who is 3. Pull up roots and get back to the farming way of life in Pennsylvania in a fashion that make it seem they were never there. "Mission obedience "

1972 *The word NIGGER still flies around.

*Aban & Hakim will embark on a major project creating small scale explosions on the farm's outskirts in Pennsylvania. Aban and Hakim both work on a farm that directly manufactures manure. To have an explosion is not difficult, but the process would be very uncommon and would raise red flags and be questioned. They have as much feces as they need. They create these small explosions naturally by placing the feces in a manure pit. Up to 90% smaller than the farm operated ones. They will be small and hidden on the hundreds of farm acres. Then capping it air-tight to prevent the odor to abscond. As the years move on they will be educated about methane.

*In Boston another cell forms, Jamal, Reheem, Uda, and Yusof.

1976 *In Indiana another cell forms, Aasera, Milik, Raheem

1979 *Tawfeek, son of Aban, marries Beth. She is black.

1980 *T. Abdulla, 14-year-old son of Hakim and Abido is found hanging in the barn. It has been rumored he is gay. They called it suicide. It was also rumored he was left hanging 5 minutes before he was taken down.

1984 *Hakim and Aban are informed by Iraqi intelligence, (Months before the American people are told) secret Israeli arms sales and shipments to Iran from the United states began in that year, even as, in public, the Reagan Administration" presented a different face, and "aggressively promoted a public campaign to stop worldwide transfers of military goods to Iran in its desire to see neither side dominate the vital resource of the oil rich regions. This family lives like its 1957 every day. And, has no trust and there never will be.

1985-1989, *Iraq begins to obtain much of its anthrax supply from the American type culture collection. These occurrences are heard loud with in the cells of the Iraqi terrorist, in turn, Aban and Mallik.

1989 *Amirmoez, son of Hakim dies of a cocaine overdose

1993 *Again, Aban and Hakim receive from the wheel (Iraqi intelligence) a prior confirmation that Iraq will attempt to assassinate President George W. Bush on Iraqi soil during his visit to Bagdad to celebrate {his} victory in the Persian Gulf war. The American people are only made aware of this news after the attempt failed.

1994 This year almost brought, for the first time, a collapse of the mission. Apparently Aasera, Milik, Raheem who are living in Indiana were overheard discussing matters of the mission by two fellow employees. The red flags went flying. After a federal investigation, the three men were cleared. The investigative team consisted of over the top liberals who abused the real meaning of first amendment rights and treated these three suspects with kid gloves.

*The same year. In Indiana, another cell forms. Amjad and Bousaid. They immediately begin to unravel. They talk too much, there seen too much, provocative and both want to be big shots. Amjad and Bousaid have become a threat to the mission. The wheel begins to churn in motion to eliminate the threat. January 4th, 2002, Bousaid is found hanging in his apartment. Amjads where a bouts are un-known.

2017 November 17th. *While on a connecting flight from LaGuardia Airport to Philadelphia, after returning to America from their homeland, Aban calmly, and in a whisper say's to his brother Hakim, "I just won 1.5 billion dollars". The 1st person he calls is Wendel Bowman. Yes, the rat is still with us, still a pig and piece of shit. A fifth column. Wendel is now 68 years old and still works at the St. Petersburg airport. With a promise of a one-way ticket anywhere and a few million too boot, Aban easily convinces Wendel to claim the winning ticket and buy the airport. The St. Petersburg Airport is one of the smaller airports that survived the changing times. Still home to up to 25 planes. Having worked at the airport for 40 years, 34 with Aban, it was no surprise Wendel would do just that. The present owners received an offer they could not refuse. Do not forget, 1.5 Billion. No red flags. The limited Government investigation which takes place when an individual wins this amount of money is focused on Wendel. And only Wendel. Again, no red flags. Of course, there is a national spotlight on Wendell, He just won a 1.5 billion dollar "Lottery" prize. The spotlight will be short lived though. Wendell never had any friends and never wanted any.

2019 February 1st, January, Hakim and Aban give Wendall his one-way tickets to Switzerland. Scheduled to leave with in the week. Aban tells Wendell he will be meeting with a gentleman tomorrow who will create his new identity. Including a birth certificate, Switzerland State I.D., Social Security Number etc. Hakim hands Wendell his Swiss bank account that reflects the 100 million Wendell himself transferred. A soft-spoken Hakim convinces Wendell to wright a suicide note and leave it for the authorities to find. "Have them assume that you Wendell, may already be dead." Wendell writes his own suicide note. Hands it to Hakim and takes his last breath. What a show!!!!!!

*Aban immediately wraps a rope around Wendel's neck. Aban and Hakim immediately begin to carry out the brutal hanging of Wendell Bowman. Starting with the brothers walking out the kitchen door of their farmhouse, pulling a rope that is tied around Wendell's neck and dragging him across the porch, and down a flight of stairs. You hear him squealing for mercy as he is drug nearly 100 feet into the barn with a tight grip on his tickets and bank book. Hakim decides to take a short cut and drags him thru a portion of the corn field. In the barn, we continue to hear Wendell's squeals. It is a grounding scene as he is hung in a hidden and concealed shaft out of view from almost every angle of the barn. Aban drops Wendell's suicide note below his dangling feet.

*Agent Frank Gage, along with the Federal Bureau of Investigation and Homeland security raid, by storm, the farm that does not have a single sign of life. Less than 12 hours- little too late.

*The president of the United States orders with the unanimous approval of Congress A COMPLETE OVERHAUL OF THE "LOTTERY" SYSTEM!

Phrases that best describe Lottery

Experiencing six decades of the evolution of profiling, from being black, a woman, of middle eastern decent or any other group un-justly judged.

An understanding of a true Martyr, In this case, Several generations of an Iraqi cell living in America.

Lottery is a continuous sequence of non-fictional events inter-twined with a continuous sequence of fictional fabrication that spans over 6 decades
