PIWC is proud to announce its “Luncheon and Learn” educational program providing a highly informative and enjoyable review of several important workers’ compensation topics. **Professor David Chetcuti** returns to PIWC to present an entertaining 1-hour workers’ compensation lecture entitled, **“You Are Only Taught Half the Law.”** This unique program is not offered elsewhere and is specifically designed for claims professionals, employers and attorneys. The professor will discuss 20 claims handling topics where for whatever reason, only half the law is taught. It truly is an eye-opener and a “must-attend” event for every claims professional.
