

A.S.K. Project (Acknowledge. Support. Keep-in-Touch)

With suicide being a leading cause of death in youth and with 1 in 6 Wisconsin public health students reporting suicidal ideation (Prevent Suicide Wisconsin, 2020), Our Daily Bread Community Outreach Center, Inc. (ODB) will bring awareness through the **A.S.K. Project** in several Milwaukee Public Schools (MPS). During the entire mental health's week, students will celebrate and learn the fundamentals of the **A.S.K. Project** through full-filled mental health activities. On May 13th, ODB will kick off the week with a Mental Health Resource Fair at my school (Barack Obama SCTE). The four other participating schools will also engage students in mental health activities. With the **A.S.K. Project**, ODB aims to not only bring awareness how to combat mental health but increase health literacy surrounding mental health conditions within several MPS.

If you want your school to partake in the new stop, drop, and roll initiative, **A.S.K.**, please contact me at 414-301-3732 or email ourdailybreadmil@att.net. Thank you!
