Message from the CEO

As you all know, infant mortality among African American is at it highest in Wisconsin. In 2013, ODB began to strategize different activities and methods to reduce infant mortality and save our babies. ODB feels these same babies are destined to our *FUTURE Leaders*. ODB collaborated with many agencies to combat this issue and improve birth outcomes. Along with other community partners, we began to impact the lives of pregnant mothers with the intent to reduce mortality rate.

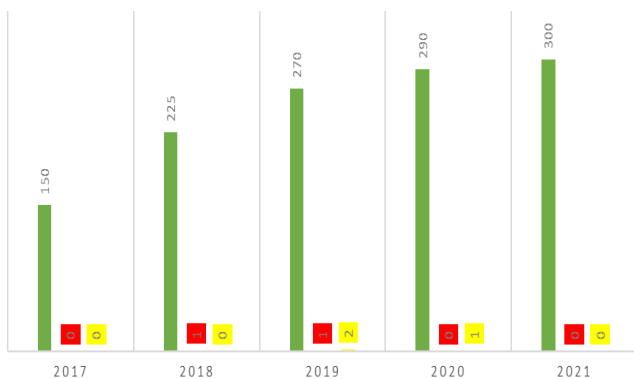

I am delighted to announce that ODB and our partners continue to reduce infant mortality rate among the African American population.

*Lea Kyle-Lewis,
Founder & CEO*

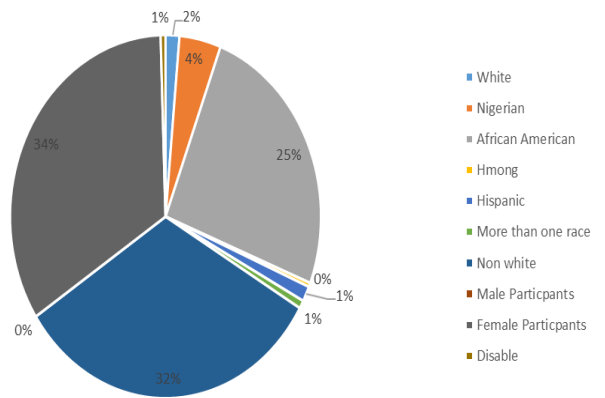

OUR DAILY BREAD BIRTH OUTCOMES

■ Clients serviced ■ infant mortality ■ Low birth weight

Our Daily Bread 2021 Population Served

ODB strives to network and build more partnerships throughout our community.

We all know, that the need is plentiful; therefore it's vital to network, work collectively, and be impactful.
