ORWA WATER RALLY - A LEGISLATIVE EVENT

April 10, 1996 - Ohio Rural Water Rally, Larry Foster-Jackson, Senator J.M. Long, Ray Howard-Hecla and Bob Sprout-Gallia.

Rep. Donald Mattley-4th District, Terry and Brian Morris-Jefferson Regional Water.

"Friend of Rural Water" plaque to Rep. William L. Ogg by Hecla Water.

Rep. John Carey-Gallia Co. Water

Senator Charles Horn-6th District and Ed Schlaack.

Over 40 Ohio legislators met with ORWA members during the April 10, 1996 Water Rally. The purpose of the Rally was to heighten our legislators' awareness of the many important issues facing water and wastewater systems today. Current water utility related legislation was also addressed with legislators on an individual basis and during the Rally reception. Several legislators were not aware of our association prior to receiving

their invitation. We were able to educate many about our services and the need for more support for rural and small water utilities. During the reception, our members learned about what to expect during the elections and how the results will impact our 1997 legislature from legislative consultant, Steve Dimon and Ohio Senator, Richard Schafrath. The pictures above represent some of the activities which occurred during the Rally.
