

City of Columbus- Department of Public Utilities

Division of Water
Engineer-in-Training II

The Department of Public Utilities, Division of Water, is looking for qualified applicants to fill a vacancy within the Water Supply Engineering Section. This full time position will perform intermediate level practical engineering work under the general supervision of a Professional Engineer. Duties include but are not limited to: reviewing engineering plans, designs, reports, and studies to provide feedback as required; make site inspections to observe construction activities, determine adequacy of work and materials, and generally assess compliance with contract requirements and City needs; and coordinate with consultants and contractors and interpret contract documents.

To be considered for this position, candidates must have two (2) of experience as an Engineer-In-Training I with the City of Columbus or equivalent experience, possess a valid Engineer Intern Certificate, and have a valid motor vehicle operator's license.

Salary for this position is \$29.37-\$44.05/hr.

If you are interested, please apply to the Civil Service Commission by applying online at <https://www.governmentjobs.com/careers/columbusoh> by 2/27/2023. You may also apply by email: DPURecruitment@columbus.gov, or fax: 614-645-0050,

Pre-employment drug screening and BCI& I background check are required if selected.

The City of Columbus is an equal opportunity employer.
