

City of Columbus – Division of Power  
Power Distribution System Operator I - EXAM

The City of Columbus Department of Public Utilities is seeking qualified candidates for the position of Power Distribution System Operator I. To apply, you **must** first take the open competitive examination. Applications **must** be submitted to the Civil Service Commission by applying on-line at [www.csc.columbus.gov](http://www.csc.columbus.gov) by 9/30/2020. Applicant tracking is now managed by NEOGOV. If you do not already have a profile in NEOGOV, you will have to set up a new one in NEOGOV before you can submit an application.

This position is responsible for monitoring detection systems, such as the Outage Management System (OMS), and documenting the day to day operations of the power distribution and transmission control system. To qualify you must have one (1) year of experience in electrical power distribution work that may include substation maintenance, power line, or cable worker duties. Substitution(s): Significant college coursework (twelve (12) semester or fifteen (15) quarter hours) in power distribution, electrical systems, electrical engineering, or a closely related field may substitute for the experience. Proof of completion of the classroom curriculum for a vocational educational program in power distribution or electrical theory may substitute for the required experience. North American Electric Reliability Corporation (NERC) System Operator Certification may substitute for the required experience. Possession of a valid driver's license is required.

Salary \$51,812.80 - \$80,100.80

Contact the Civil Service Commission at 645-8300 with questions. City of Columbus is an Equal Opportunity Employer.
