

## CITY OF IRONTON, OHIO

### CLASS III WASTEWATER SUPERINTENDENT

---

Please respond by mailing a resume to:

Mayor Samuel Cramblit  
301 S. Third St., P.O. Box 704  
Ironton. OH 45638

#### **General:**

The City of Ironton owns and operates a wastewater treatment facility designed for a maximum daily flow of 3.4 MGD, which is located along and discharges to the Ohio River. This facility currently requires a State of Ohio certified Class III Operator. The facility serves a population of approximately 11,130 as well as many commercial and industrial businesses in the City of Ironton. The sewer lines range from 8" – 92" in diameter and consist of combined and separated sewers. There are 12 storm water pumping stations (maintained by others), 8 sanitary lift stations and 8 combined sewer overflows.

#### **Scope of Services:**

1. Provide technical support to operate and maintain the facility and sanitary lift stations.
2. Monitor and report occurrences of sanitary sewer and combined sewer overflows to the Owner and the Ohio EPA
3. Schedule standard monthly testing involved and/or required by the OEPA in order to meet the facilities requirements.
4. Prepare and submit monthly reports required by the OEPA with an informational copy being submitted to the Owner.
5. Prepare annual preventive maintenance plans.
6. Provide planning for system failure, natural disasters, or emergency situations for Owner's implementation.
7. Report to the owner on the condition and operation of the facility.
8. Be available on a 24-hour basis to handle any sewer system emergencies that may arise.
9. Respond to correspondence from the Ohio EPA regarding the facility.
10. Meet Ohio EPA requirements for time spent on-site.
