POSITION DESCRIPTION
CITY OF PAINESVILLE
An Equal Opportunity Employer

Position Title: Treatment Plant Mechanic I	3200
---	------

Department: Water Treatment & Water Pollution Control Plant	Date: 12/8/2003
--	------------------------

Pay Class: 10	Exempt / Non-exempt: Non-exempt
----------------------	--

General Purpose for Job: This is semi-skilled work in the inspection, operation, maintenance, and repair of treatment plant facilities and equipment.

Work involves responsibility for performing a variety of manual and semi-skilled tasks in the preventive maintenance, repair, overhaul, and operation of pumping stations and treatment plants. Established procedures control the inspection, test, operation, and preventive maintenance of equipment; once learned, these procedures are expected to be performed without direct supervision. More complex tasks are typically performed under the supervision of a fully qualified mechanic or other supervisor. Work is evaluated for adherence to procedures by observation of work in progress and on completion.

DUTIES *(The duties listed below are illustrative of the work performed by this classification. All duties are essential functions of the job unless otherwise noted with an asterisk.)*

- Inspects equipment for operating condition; performs preventive maintenance of station and plant equipment, packing pumps, and lubricating equipment; tests valves and controls for operating condition.
- Cleans buildings, mows grass, and removes snow; repaints equipment and interior and exterior surfaces; operates hand and power tools and equipment.
- Serves as helper on complex electrical and mechanical repair and installation projects; assembles tools and equipment; carries out assigned tasks and assists in the more complex ones, including the overhaul and replacement of major equipment items.
- Performs related work as required.

MINIMUM EDUCATION AND EXPERIENCE <i>(Required to qualify for position)</i>

Education: High school diploma

Experience: Some experience in the operation and preventive maintenance of such equipment as electric motors, pumps, and allied equipment.

A different combination of education and experience may be acceptable if deemed equivalent.

KNOWLEDGE, SKILLS AND ABILITIES *(Required for satisfactory performance. Those which may be acquired after hire are noted with an asterisk.)*

Knowledge of:

- The operation and maintenance of pumps and electrical controls involved in the operation of water and wastewater plants.
- Pipe fitting, welding, and elementary mechanics.
- The occupational hazards and safety precautions of the work.

Skill and Ability to:

- Read, interpret, and work from blueprints, schematics, and maintenance manuals.
- Diagnose equipment malfunctions and to make required repairs.
- Establish and maintain effective working relationships with others.
- Skill in the use of tools and equipment required by the work.

License or Certification Required: Valid Ohio driver's license. Valid commercial driver's license must be obtained within one year of employment for Water Pollution Control Plant mechanics only.
