

Cloverdale Dupont Wastewater Authority
OTCO Certified Class I Wastewater Operator Position

The Villages of Cloverdale and Dupont, Putnam County, Ohio is searching for a part-time contract OTCO Certified Class I wastewater operator to operate their joint wastewater treatment facility. The contract operator must be OTCO certified at a minimum Class I Wastewater and properly maintain their certification during their contract period.

The contractor must have knowledge of wastewater plant operations, methods used to treat municipal wastewater, as well as knowledge and training of state and local laws/regulations relating to wastewater treatment, work hazards and safety precautions. The contractor must submit eDMR reports to Ohio EPA to assure reporting compliance for the Villages.

The contractor must have the ability to perform physical labor and operation knowledge to properly operate and maintain the wastewater treatment facility. The contractor must maintain wastewater plant operating equipment, prepare samples for contract laboratory analysis, maintain plant operating records, read and interpret gauges and other data and determine adjustments needed to plant operating processes as well as operate electrical control panels and maintain sensors.

The time period to apply is June 1, 2021 to July 2, 2021. Please submit resumes by email to Mayor Tom Burkhart of Cloverdale at the following email address:

tomburkhart@bright.net

Within your resume, please indicate your OTCO Wastewater Operator Certification Class and Certification Number.
