Protection
Agency**

Andrew Barienbrock	Environmental Manager	
Carrie Winger	Environmental Specialist 3	Developing Inspector Training, District Oversight, Reclassifications, Technical Assistance, Emergency Response and Sanitary Survey Auditing
Rebecca Ilic	Environmental Specialist 2	Operator of Record notifications, Technical Assistance, Sanitary Survey Auditing
Jessica Frey	Environmental Specialist 2	Security, Contingency Planning, Emergency Response Planning, Operator Notifications and Enforcement
<i>Kevin Swiadek</i>	<i>Environmental Supervisor</i>	<i>Operator Certification</i>
<i>Susan Riggins</i>	Environmental Specialist 2	Contact Hours, Advisory Council, eBusiness and application processing
Colt Bush	Environmental Specialist 2	Contact Hours, eBusiness, ACHTP Program, and application processing

Operations, Resiliency, and Certification Section

Security

- Heightened awareness of water and wastewater plant security
- Increased attacks on America's infrastructure
 - U.S. EPA and the Cybersecurity and Infrastructure Security Agency (CISA) are warning of high risk due to Russian tensions
- Resources:
 - Implementing a cybersecurity program
 - Updates on vulnerabilities and reporting attacks - CISA
 - What to do if you are attacked – Department of Justice

Free Cybersecurity Assessment and Technical Assistance

Cybersecurity is a broad term that refers to the security of computer network infrastructure and data. A cyber attack is an attempt to undermine or compromise the function of a computer network or system, or an attempt to track the online movements of individuals without their permission.

What is the assessment and technical assistance?

With the U.S. Environmental Protection Agency, Horsley Witten Group (HWG) is offering free, confidential, cybersecurity assessments and technical assistance to interested water and wastewater utilities. The assessment consists of a questionnaire completed with HWG staff, and the technical assistance consists of developing a cyber action plan based on the results of your utility's assessment focused on best practices to prepare for, respond to, and recover from a cyber incident. Adoption of these practices can reduce the likelihood that a cyber attack will be successful and allow the utility to recover from any cyber attacks faster and at a lower cost. Due to the COVID-19 pandemic, HWG is offering this assessment and technical assistance virtually.

What are the expected outcomes?

All individual utility information gathered during the assessment will be protected and remain confidential. Trends in the anonymized, aggregated data will be shared with other utilities and agencies so that lessons learned from the assessments may benefit all.

Participating utilities can expect to receive a straightforward overview of their vulnerabilities and suggested best practices to reduce risks to their business enterprise, SCADA, and communications systems. Additionally, the utility will develop their cyber action plan with HWG and work to implement any recommended best practices.

What does the utility need to prepare before the assessment and technical assistance?

The assessment will require input from management, IT, operations/control staff and engineers as appropriate. The utility will also need to compile and provide any existing system documentation/diagrams, policies, and procedures.

Is there any follow-up?

Yes, HWG will contact the utility on two separate occasions after the development of the cyber action plan to gauge progress and see if additional assistance is required.

How does my utility participate?

To date, we have worked with over 100 utilities across the United States providing free cybersecurity technical assistance. EPA plans to expand the program as resources allow. We are continuing to register interested utilities at the link below. If you would like more information about the program, contact Gemma Kite at gkite@horsleywitten.com, or (508) 833-6600.

To register your utility, please visit:

Cyber Security Resources

- Resources
 - Ohio EPA Emergency and Security Preparedness
 - U.S. EPA Cybersecurity Best Practices for the Water Sector
 - Response partnerships
 - CISA Shields Up | CISA
 - Free cyber scanning <https://www.cisa.gov/cyber-hygiene-services>
 - Water ISAC (water Infrastructure security network)
 - WaterISAC
 - Dragos – Free Community Defense Program Registration

Cyber Security Take Aways

- Change default passwords
- Segment networks
- Update software with patches

Supply Chain Issues

- U.S. EPA website on Supply Chain Resilience - [Water and Wastewater Sector Supply Chain Resilience | U.S. EPA](#)
 - Identify alternate suppliers
 - Stay up-to-date on current and potential issues
 - Notify U.S. EPA

Contingency Plan Rules

- Changes were effective April 15, 2022
- Minor clarification language (i.e., hard copy vs. electronic copy)
- Added a few required circumstances to address
 - Contamination of treated water
 - Malevolent acts (cyber, vandalism, etc.)

Paper and Pencil Exams

Last paper and pencil examination was held on May 3, 2023

**Environmental
Protection
Agency**

Future Exams

- Exams are still being given by our third-party exam provider Water Professionals International (WPI)(formerly ABC)
- Preparation is the same - use the Need-to-Know Criteria and References Materials
- Ohio EPA developing course on exam preparation

Preparing for Exams

- How to prepare
 - Need to know criteria
 - References
- What not to do
 - Do not use question sets as your only study method

WPI/ABC Need To Know Criteria

Please note that the title on WPI's Need to Know Criteria may be a different exam level than the Ohio EPA certification you are seeking. When you are applying through WPI's provider, once you select Ohio EPA certification, you will select the Ohio EPA certificate level you are seeking and the appropriate WPI test is selected.

- [Wastewater Collection](#)

WPI Exams

- WPI is in the process of updating the exams:
 - Water and wastewater surveys were sent
- Developing job analyses
- Developing questions
- Building exam data banks

2023 Renewals

- Renewals were due November 30, 2023
- Certificates expired on December 31, 2023
- Anyone with an expired certificate has until June 30, 2024 to renew prior to being required to retest.

Minimum Staffing Reporting

- Use the reporting app
- You were required to start using the tool for the July 2021 minimum staffing report
- DDAGW is sending NOVs to operators of record who do not submit

Drinking & Ground Waters

Certified Operators

Certified water and wastewater operators are essential for the protection of public health and the environment. Ohio EPA's Operator Certification program has certified more than 12,000 operators, ensuring public water and wastewater systems are operated by properly trained and qualified individuals.

[Learn how to become a certified water or wastewater operator.](#)

To submit an Ohio EPA Paper and Pencil exam, renewal, third party certification or reciprocity application(s) please visit the [Ohio EPA eBusiness Center webpage](#). For instructions to utilize the eBusiness Center please view the instructions below under the Operator tab.

REQUIRED TRAINING: Starting Aug. 15, 2018, all applicants will need to review the training document below prior to submitting the Ohio EPA exam, third-party exam certification, reciprocity and renewal applications and Operator-in-Training forms. This document will be updated periodically to reflect the current rules, regulations and policies.

RENEWAL GRACE PERIOD: The operator renewal application grace period has been reduced to 6 months. A complete renewal application must be received by June 30 of the year following your expiration date. If a complete renewal application is not received by June 30 of the year following your expiration date, you must re-take the examination to be certified.

Required Operator Training

Ohio Environmental Protection Agency Operator Rules & Requirements

Required Training

This training is required prior to signing any operator certification application.

Items of Note in the Required Training

- Reporting minimum staffing times
- Logbook information
- Must still meet minimum staffing time in weeks with holidays
- Contract operator rule
- As rules change within the program, highlights will be added

Website Information

Career Information tab

- Updated job boards
- Improved veteran information and outreach
- Provide links to apprenticeship, associate degrees, and certificate programs

Operator Certification Rules Review

- Interested party review ended on April 1
- Clarifications
- Removal of old language
- Allowances for holidays
- Allowances for off-site meetings
- Allowing OIT for Class III
- Proposing facility-specific certification – Class III and IV facilities
- Reducing the operating experience requirement for Class II, III and IV certificates
- Reciprocity
