The Village of Attica Water Department is searching for a Class 2 Ohio EPA Water Supply Licensed Operator for immediate hire.

The Village of Attica has a Class 3 Surface water plant and Class 1 Distribution system. This position being filled will assist the current staff in the water system, sewer system, and street & parks operations. Also, will be a backup Operator of Record for Class 3 water plant and Class 1 distribution system.

Notice:

Attica is transitioning from operating and maintaining a Class 3 surface water plant to regionalization, currently in the planning, designing, and funding phase.

The hired operator will have substantial time to operate and earn time in a class 3 water plant. Then be operator of record for a Class 1 distribution system. The hiree will have a potential for management/supervision advancement soon.

Candidates with excavation, heavy equipment operation and water line fixes experience will be highly sought out for.

Wage determination will be based on experience.

Attica does offer annual license pay.

Please email resumes to voawater@bright.net or call 567-201-6400 for questions or to schedule and interview.

Thank you,

Attica Water Department
