

# SAMUEL MASON

Merritt Island

Samuel is in his 70's and lives in a group home in Florida. He uses pencil, acrylic and watercolor to create his art. Prior to the year 2000, most of Samuel's work depicted brick work. Currently, his interest is palm trees.

In 2018, Samuel was paralyzed and given a 35% chance of ever walking again. Fortunately, with continued therapy he is now able to walk again. Sam is interested in mastering use of the computer in order to pursue taking virtual art lessons.

In 2004, Samuel was awarded a Javits-Wagner\_O'Day (JWOD) coin as a special memento that NISH presents for only the "most outstanding of achievements" for his art.
