## ARTIST and MUSICAL SAVANT

Daryl is an amazingly multi-talented Musical Savant, Electronic Dance Music Producer and Artist from Ireland, who has Asperger's Syndrome.

He is completely self-taught. Daryl has been producing dance music since 2015, and was diagnosed as a musical savant in 2019. Since then he has received certificates for his music and has had his music listened to and praised by some of the biggest names in the music industry. Daryl produces mostly Deep House music. He is also a Death Metal/Heavy Metal guitarist.

Now after finishing college his main aspiration is to get signed to a major record label and have his music placed in movies, etc.

In May of 2022, within a span of approximately a two month period, Daryl also taught himself to draw. He creates amazingly detailed portraits mostly based on Horror movies, Sci-Fi movies, animals and celebrities.

In 2023 Daryl's art and music were presented at The NYC Department of Education to honor Neurodiversity Week.

### ARTIST STATEMENT:

*I am inspired by the horror and Sci-fi movies I watch and the music I listen to. I like to draw portraits of female actresses and female models. I also draw portraits of religious figures. My artwork can be seen in San Giovanni Rotondo Italy and in The Voice of Padre Pio.*
