**MOORE HR**

**Stephen Moore**  
**Founder & Managing Director**

Stephen Moore spent the first twenty years of his professional career occupying a diverse range of Employee Relations roles within leading organizations including Trans Australia Airlines, Ford Motor Company & Coles-Myer.

In late 1995 Stephen formed Optimum Performance HR Consultants, where he spent the next two decades primarily designing & delivering people metrics, analytics & planning solutions to a diverse client base located throughout Australia, New Zealand, Asia & South Africa.

After a short stint in the HR software development industry, in early 2018, Stephen established a new consulting practice (MOORE HR), which provides a range of virtual and in-house services that support HR Departments in designing, executing, and sustaining Strategic Workforce Planning & People Analytics programs in their organizations.

Along this long and often unpredictable journey, Stephen has collaborated with the Australian Human Resources Institute, the Human Resources Institute of New Zealand, the Hong Kong Human Resources Institute, the Public Service Commission WA and Latrobe/Deakin University Graduate Schools of Management in designing & delivering a diverse range of public training workshops, conferences, tertiary level distance learning courses, and MBA master-classes to more than 3,000 HR professionals located across nine separate countries.

Stephen also developed and managed his own USA HR Best - Practice Study Tour, where for more than a decade, senior Australian Human Resources executives were provided with the opportunity to benchmark pre-eminent organizations, who amongst others included Harley - Davidson, FedEx, NASA, Cisco Systems, Hewlett-Packard, and Marriott Hotels.
