

ICAO MPL CONVERSIONS TO EASA MPL

AIRBUSRENEWLPC.COM has been making these conversions for over 2 years and has a very good working relationship with the EASA CAA to whom you will be applying for your EASA MPL.

There is now a proven way forward for those Pilots holding ICAO MPL (frozen ATPL) with EASA UK CAA ATPL theory exam passes to Convert to EASA MPL (frozen ATPL).

We have successfully carried out this conversion for many ICAO MPL Pilots to date. As a result we have considerable experience in completing these conversions. There are procedures and rules to follow and we will assist and guide you with this process.

Some of these rules concern the approval and licensing of the TRI/TRE who will conduct your MPL Assessment and Final LST. Under the EU/ EASA legislation laid down, both the ATO and TRI/TRE conducting your assessment and the TRE conducting your final LST, MUST have EASA MPL QUALIFICATIONS.

At AIRBUSRENEWLPC.COM we have our own TRI/TRE who has the required MPL qualifications.

N.B. there are no ATO with (MPL) in the UK who are prepared to carry out MPL assessments!

Contact us directly as soon as possible before your ATPL theory exam results expire! (36 MONTHS FROM LAST SUBJECT PASSED)
