 Cleveland, Ohio

Potential School Partner,

At EBQ Coatings, we understand that the appearance and condition of your school directly impacts how students, parents, staff, and visitors perceive your facility.

From Catholic schools and private schools to charter schools and educational campuses, maintaining a clean, professional, and welcoming environment is essential—especially during enrollment tours, open houses, sporting events, and community functions.

Daily foot traffic, seasonal weather, moisture, scuffs, and constant use gradually wear down hallways, classrooms, gym areas, offices, entryways, and exterior surfaces.

Over time, even quality facilities begin to look tired, outdated, or poorly maintained without a proactive upkeep plan.

THAT'S WHY WE OFFER A PROACTIVE SOLUTION.

Our Campus Maintenance Program is designed to protect and maintain your school inside and out. As a Cleveland-based company, we understand the unique needs of educational facilities and the importance of keeping your campus safe, clean, and inspiring.

Instead of waiting for visible damage, we routinely inspect, touch up, and maintain your surfaces so your school stays beautiful, functional, and tour-ready all year long.

WITH AN EBQ SCHOOL MAINTENANCE CONTRACT, YOUR FACILITY BENEFITS FROM:

- ✓ Cleaner, brighter classrooms and hallways
- ✓ Better first impressions during school tours and community events
- ✓ Protection against moisture, peeling, and surface deterioration
- ✓ Extended life of walls, coatings, floors, and exterior surfaces
- ✓ Reduced long-term repair and repainting costs
- ✓ Flexible scheduling around school calendars, breaks, and off-hours
- ✓ Priority service from a trusted, local Cleveland-based team
- ✓ Safer, more welcoming learning environments

Think of it as preventative maintenance for your campus.

Small, routine upkeep prevents major, unexpected expenses while keeping your school looking its best for students, families, and visitors.

We would be happy to evaluate your facility and create a customized maintenance plan that fits your needs, budget, and academic calendar.

Protect your investment and the environment where students learn, grow, and thrive.

Sincerely,

EBQ Coatings
