EBQCoatings.com

Cleveland, Ohio

## Potential Customer,

At EBQ Coatings, we've seen firsthand how quickly Cleveland's weather and everyday use can take a toll on both the exterior and interior of a property.

Most property owners don't think about paint until it starts peeling or looking worn but by then, the damage has already begun.

Outside, snow, rain, humidity, and temperature swings gradually break down protective coatings. Once that barrier fails, moisture seeps into wood and other materials, leading to rot, warping, mold, and costly repairs.

Inside, high-traffic areas, moisture, and daily wear slowly degrade surfaces resulting in scuffs, stains, fading, and an overall tired appearance that affects the feel of your space.

## THAT'S WHY WE OFFER A PROACTIVE SOLUTION.

Our Maintenance Painting Program is designed to protect and maintain your property inside and out. As a Cleveland-based company, we understand the local climate and the day-to-day demands on interior spaces, and we tailor our maintenance schedules accordingly.

Instead of waiting for visible damage, we routinely inspect, touch up, and maintain your coatings keeping exterior surfaces sealed against the elements and interior spaces fresh, clean, and professional-looking.

### WITH AN EBQ COATINGS MAINTENANCE CONTRACT, YOU BENEFIT FROM:

- ✓ Extended life of paint and building materials
- ✓ Prevention of wood rot, moisture damage, and deterioration
- ✓ Cleaner, brighter, and more professional interior spaces
- ✓ Reduced wear and tear in high-traffic areas
- ✓ Lower long-term repair and repainting costs
- ✓ Consistent curb appeal and property value
- ✓ Priority scheduling with a trusted local team

Think of it as routine maintenance for your entire property just like servicing a vehicle.  
**Small, regular upkeep prevents large, unexpected expenses while keeping everything looking its best.**

We would be happy to evaluate your property and create a customized maintenance plan that fits your needs and budget.

Protect your investment and maintain a space you're proud of inside and out.

Sincerely,

*EBQ Coatings*
