

# BACKHAUS TOWEL CLAMP

3.5" Backhaus Towel Clamp  
#030-000-09

5.5" Backhaus Towel Clamp  
#20.5620

Most common towel clamp.

Used to secure drapes to the patients skin and define the operating site.

They are considered contaminated once they have punctured through the drape. If repositioning is needed, then the old clamp must be discarded and a new one used.
