

## **3A Supply Chain LLC**

### **Functional Supply Chain Planning Consultant**

3A Supply Chain LLC, a US based supply chain advisory company, has an exciting opportunity for young up and coming candidates looking to build a career in supply chain planning.

This is a functional role based in India, where you will support on site teams, predominantly in North America, to delivery supply chain planning projects using best of breed machine learning (ML) and Artificial Intelligence (AI) based planning platforms.

You will support business process understanding, modelling, testing and overall project delivery, ensuring the project meets time, cost and quality objectives. You will be trained on modern supply chain planning concepts and have a wonderful opportunity to learn and work with the latest supply chain planning software platforms, which are redefining the industry.

These are consulting roles so will give you an opportunity to learn from different clients across multiple industries, relatively quickly. You will be employed through an India based partner as a contractor. They will provide you with a strong base knowledge of supply chain planning concepts. If accepted on a project, you will receive a limited initial salary for the first year.

#### ***KEY RESPONSIBILITIES***

Supporting the onsite team to:

- Understand the as-is solution.
- Define the to-be solution within the scope of the opportunity.
- Implement the software to support the to-be solution.
- Model the in-scope portions of the supply chain within the software.
- Gather and analysis data.
- Define the sprints for modelling and configuration.
- Create the unit and end to end test cases.
- Test systems integration.
- Perform user acceptance testing.
- Work with planners through parallel run.
- Manage go live.
- Provide post go live support.

#### ***YOU SHOULD HAVE***

- BE/BTech degree or equivalent.
- Masters in Supply Chain or equivalent preferred.
- Experience in manufacturing environments preferred.
- 1-2 years of experience in supply chain.
- Good analytical skills.
- Strong verbal and written communication in English.
- Strong working knowledge of Microsoft Office, in particular Word, Excel and PowerPoint.
- Knowledge of SQL a plus.

Interested candidates should send their latest CV to [info@3asupplychain.com](mailto:info@3asupplychain.com).
