

3A Supply Chain LLC

Supply Chain Planning Senior Software Engineer

3A Supply Chain LLC, a US based supply chain advisory company, has an exciting opportunity for candidates looking to grow their career in supply chain planning.

This is a full-time technical role based in Bangalore, where you will support development teams, predominantly in India, to migrate, build and maintain supply chain planning software on the cloud. You will develop processes and code for pipeline automation of a supply chain planning solution to Microsoft Azure.

The client is a US based software and consultancy company that provides supply chain management, manufacturing planning, retail planning, store operations and category management offerings and is owned by a \$ 80 B global conglomerate.

YOU SHOULD HAVE

- BE/BTech degree or equivalent.
- Masters in IT, Systems, Technology or equivalent preferred.
- 5-7 years of development experience.
- Experience in Java or NodeJS.
- Experience in Web and API development.
- Experience in ReactJS with Typescript.
- Experience in Azure Cloud development (API Apps, API Management, API Gateways) is an advantage.
- Experience in Jenkins, Ansible and Groovy is an advantage.
- Good analytical skills.
- Strong verbal and written communication in English.
- Strong working knowledge of Microsoft Office, in particular Word, Excel and PowerPoint.

Interested candidates should send their latest CV to info@3asupplychain.com.
