

**LG Platinum Series I. Solar Energy System 5KW** - Hybrid Inverter with optional Battery

LG NeON 2 325 – 335 watts Mono-crystalline Solar Panels & Solaredge Single Phase Inverter – Three Phase Available

**Fifth Generation – Top brand Australia Award**

- 15 year Product warranty
- 25 year performance warranty
- 12 bus Mono-crystalline cells
- PID Resistant
- 19.0% module efficiency
- Low annual output degradation
- Class leading wind load resistance
- More power per Square Metre
- Excellent low light performance
- High tolerance to salt down the beach

**Solar inverters specifically designed to work with power optimizers**

- Single Phase (Hybrid)
- Ideal for home & business
- Monitor power via Wi-Fi
- IP 65 waterproof
- Naturally cooled
- 12/25 year warranty
- Battery ready
- EPS - Emergency Power Supply – std on all hybrid inverters

**LG Platinum Series II. Solar Energy System 5KW** - Hybrid Inverter with optional Battery

LG NeON 2 325 – 335 watts Mono-crystalline Solar Panels & Enphase micro Inverter – Three Phase Available

**Best in class – Great visual appearance**

- 15 year Product warranty
- 25 year performance warranty
- Advanced design – award winning
- 12 bus bar Mono-crystalline cells
- 19.0% module efficiency
- Ideal panel for Oz conditions
- Low annual output degradation
- Class leading wind load resistance
- High tolerance to salt down the beach
- More power per Square Metre
- Top brand PV award

**World's most advanced inverter technology.**

- Attached under each panel
- Output Power: 260/270VA
- Commonly used module pairing – input power: 230 W – 350 W
- Peak Power Tracking Voltage: 27 - 48 V
- 95.6% EU Efficiency
- 96.9% Peak Efficiency
- Smart grid ready
