

**LG Solar New Build Series 3. Solar Energy Systems 2 - 5KW TOP PERFORMER**

LG NeON R Mono-crystalline 360 watt Solar Panels & SolarEdge Single Phase Inverter with battery option

**Superior performance – Ultimate visual appearance**

- 25 year Product warranty
- 25 year performance warranty
- Double sided cells absorb light from the front and the rear of the module
- **Ultimate** visual appearance
- 30 multi ribbon bus bar
- Up to 20.8% module efficiency
- 38% more electricity per m2 than a standard 260W panel
- 87% nominal power output after 25 years
- Ideal panel for Oz conditions
- PID Resistant
- Low annual output degradation
- Class leading wind load resistance
- High tolerance to salt down the beach
- More power per Square Metre
- Top brand PV award winner

**Compact Residential Solution**

- SolarEdge – DC optimised
- Up to 6.0kW
- Single Phase
- Works with SolarEdge optimisers
- Air cooling
- Ideal for private households
- 99% EU Efficiency
- Smart grid ready
- Wi-Fi monitoring
- **12 year** Product Warranty extendable to 25 years
- Battery ready for AC coupled mode

**LG Solar New Build Series 3. OPTIONS**

**Battery Options:** Batteries have come of age in recent years and at the same time pricing has reduced – so instead of just having panels for power generation during the day.

Why not consider a system that provides you with energy around the clock?

- **LG Chem Batteries** – best of breed
- Capacities from 3.3 – 10kWh
- Single and three phase models
- Leaders in residential energy storage
- 10 year product warranty
- Ideal for Oz conditions

**Other Options**

- Wi-Fi monitoring platform
- AC coupling for LG Batteries
- **Upgrade to LG NeON 2 Black panels**
- **Upgrade to LG NeON 2 – R panels**

**Warranty**

- LG NeON 2 & NeON 2 **Black**
- 15 years Product & 25 years Performance
- LG NeON 2 **R**
- 25 years Product & 25 years Performance
  - LG Batteries 10 years
