Summer	 Read, write, recompare and to 100 One more / ferfewer Identify number 	order numbers wer, ten more /	 Explore additions subtraction invalid numbers and one of the expression of	volving 2-digit ones d explain ubtraction with	 Name coins a understand th Represent the using different Find change 	eir value e same value	Share equallyDoublingLink halving toAdd equal groExplore arrays	fractions ups	 Compare capa and lengths Explore litres Apply understa fractions to cap 	anding of

	Week 1 Week 2	Week 3 Week 4	Week 5 Week 6	Week 7 Week 8	Week 9	Week 10 Week 11 Week 12		
_	Numbers within 100	Addition and subtraction of 2-digit numbers	Addition and subtraction word problems	Measures: Length	Graphs	Multiplication and division: 2, 5 and 10		
Autumn	 Read, write, represent, partition, compare and order numbers to 100 Explore patterns including, odds and evens, tens and ones 	 Apply number bonds to add and subtract Represent and explain addition and subtraction of two 2-digit numbers. Add three 1-digit numbers 	 Introduction to bar models as a representation Create, label and sketch bar models 	 Draw and measure lengths in centimetres Use <, > and = to compare and order lengths in metres and centimetres 	 Represent and interpret: pictograms, block diagrams, tables and tally charts. 	 Calculate the times tables of 2, 5, and 10 by skip counting Relate the 2 times table to doubling Explore representations of multiplication and division Commutativity 		

	Week 1 Week 2	Week 3 Week 4	Week 5 Week 6	Week 7 Week 8	Week 9 Week 10 Week 11
	Time	Fractions	Addition and subtraction of 2-digit numbers	Money	Face, shapes and patterns; lines and turns
Spring	 Tell the time on an analogue clock: quarter past, quarter to and five minute intervals Calculate durations of time in minutes and seconds Sequence daily events Minutes in an hour and hours in a day 	 Part-whole relationships Fractions as part of a whole or a whole set Relate to division Equivalent fractions 	• Illustrate, represent and explain addition and subtraction involving regrouping including 'Make Ten', 'Round and adjust' and near doubles strategies	 Recognise coins and notes Use £ and p accurately Add and subtract amounts Calculate change 	 Explore, sort and describe 2-D shapes Lines of symmetry in 2-D shapes Identify 2-D shapes on 3-D shapes Compare and sort 2-D and 3-D shapes Use language to describe position, direction and rotation to follow a route

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9
Jer	Numbers within 1000		Capacity and ume	Measures: Mass	Exploring castrates		Multiplica	tion and divisio	n: 3 and 4
Sumn	Represent in different waysCompare using symbolsRead scales	Read and meas Estimate, measured understand litres Compare and or	ure and sand sand millilitres	Weigh and compare masses in kilograms and grams	 Apply addition and strategies to solve Illustrate and expl subtraction using 	e equations ain addition and	•Relate 4 times to	d division facts for able to doubling the ret and represent use relationship	2 times tables

	Week 1 Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11
	Number sense and ex calculation strateg	. •	Place	/alue	Graphs	Additio	on and subtra	action	Length an	d perimeter
Autumn	 Read, write, order and compate to 100 Calculate mentally using known round and adjust, near double to find the difference Derive new facts from a known 	wn facts, es, adding on	 Read, write, repartition, order compare 3-diginal formula for	r and git numbers 00 more or nearest	 Collect, interpret and present data using charts and tables 	Develop and calculation stream Illustrate and methods – co	rategies explain formal		Measure, dr compare lenAdd and subCalculate pe	gths tract lengths

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10
	Multiplication	and division	Deriving n	nultiplication a facts	and division	т	ime		Fractions	
Spring	 Multiplicative s groups/parts, 	4, 5, 6, 8 and 10 structures: equal change and orrespondence	• Multiply a 2-di	ivide by 10 and 1 git number by 2, I division situation by a 1-digit	3, 4, 5 and		culate and	and as a num	part of a whole or	

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9
Jer	Į.	Angles and shap	e		Measures		Securing multiplication and division		calculation d place value
Sumn	as a quarter of a • Identify and draw	w parallel and perpossify and compare 2	endicular lines	mass and volum	pare masses and c	o .	 Recall and use multiplication and division facts for 6 and 8 times table 	 Add and subtract Find 10, 100 and less Order and comp Round numbers 	d 1000 more or are beyond 1000

	Week 1 Week 2	Week 3 Week 4 Week 5	Week 6 Week 7 Week 8	Week 9 Week 10		
	Reasoning with large numbers	Addition and subtraction	Multiplication and division	Discrete and continuous data		
חנח	 4-digit place value. Read, write, represent, order and compare Find 10, 100 or 1000 more or less Round numbers to the nearest 10, 100 or 1000 	 Select appropriate strategies to add and subtract Illustrate and explain appropriate addition and subtraction strategies including column method with regrouping 	 Distributive property including multiplying three 1-digit numbers Mental multiplication and division strategies using place value and known and derived facts Short multiplication and division 	 Read, interpret and construct pictograms, bar charts and time graphs Compare tables, pictograms and bar charts 		

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11
D	Securing multiplication facts		Frac	tions		Time		Area and perimeter			
Spring	• Identify and explore patterns in multiplication tables including 7 and 9	fractions	actions greater	than one as n	nixed number	 Analogue to digital, 12- hour and 24-hour Convert between units of time 	and halves •Compare a number of	nd order number decimal places d divide by 10 ar	rs with same	and rectilin • Area of rec	tangles and and compare

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10
Jer	Solving	measures and problems	d money	Sha	pe and symm	etry	Position and direction	_	with pattern quences	3-D shape
Sumn	 Use strategies and improven 	of measure briate units to me is to investigate p nent, organising of g systematically	roblems: trial using lists and		pare and order a classify 2-D sha of symmetry	•	 Describe and plot using coordinates Describe translations 	Roman numePlace value of systemsNumber sequipatterns	of other number	 Use understanding of 3-D shapes Identify 3-D shapes from 2-D representations

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10
	_	ı with large ntegers		ldition and action		aphs and tables	Multi	plication and d	ivision	Perimeter and area
Autumn	million • Round numbe million to the rof powers of to	compare numbers up to one million Round numbers within one million to the nearest multiple of powers of ten Read Roman numerals up to		 Use rounding to estimate Use a range of mental calculation strategies to add and subtract integers Illustrate and explain the written method of column addition and subtraction Select efficient calculation strategies 		Complete, read and interpret data presented in line graphs Read and interpret timetables including calculating intervals		ples and factors rime numbers divide by 10, 100 explain formal m egies such as sho of mental calculat	ultiplication and ort and long	 Investigate area and perimeter of rectilinear shapes Estimate area of non-rectilinear shapes
	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10
	Frac	tions and dec	mals	Ang	gles	Fracti	ons and perce	entages	Transformations	
Spring	 Read, write, order and compare deciments Round decimals to the nearest whole in the compare fractions (including improper mixed numbers) Calculate fractions of amounts 		t whole number e, order and nproper and	angles • Measure a draw angles with		are multiples • Multiply fraction whole number	of the same num ons (and mixed i	numbers) by a	 Coordinates in quadrants Translation ar Calculate integer as a connegative num 	nd reflection rvals across text for
	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10
	Convertin mea	g units of sure	Calculating	with whole no decimals	umbers and	2-D and	3-D shape	Volume	Problen	n solving
Summer	of length, mass and capacity and units of time •Know and use approximate conversion between imperial and metric involving dec involving dec involving dec		n strategies to add, subtract and ving decimals livide by 10, 100 and 1000		 Classify 2-D shapes and reason about regular and irregular polygons Properties of diagonals of quadrilaterals Classify 3-D shapes 2-D representations of 3-D shapes. 		 Use cube numbers and notation Estimate volume Convert units of volume 	 Negative num calculating int zero Calculating the Interpret remains of the Investigate number consecutive, multiples 	ervals across e mean ainders imbers:	

The first two units need to be taught before any other units as these cover place value and the four operations and ensure firm foundations for the rest of the learning. The remaining units can be taught in any order with the following caveats:

- The first five lessons of the first Fractions unit should be taught prior to learning on calculating with fractions.
- The Proportion problems unit should only be taught after the units on fractions, decimals and percentages.

1) Integers and decimals (10 lessons)

- Represent, read, write, order and compare numbers up to ten million
- Round numbers, make estimates and use this to solve problems in context
- Solve multi-step problems involving addition and subtraction

2) Multiplication and division (15 lessons)

- Identify and use properties of number, focusing on primes
- Multiply larger integers and decimal numbers using a range of strategies
- Divide integers by 1-digit and 2-digit numbers representing remainders appropriately
- Illustrate and explain formal multiplication and division strategies

3) Calculation problems (10 lessons)

- Understand the use of brackets
- Use knowledge of the order of operations to carry out calculations
- Generate and describe linear number sequences
- Express missing number problems algebraically
- Solve equations with unknown values

4) Fractions (10 lessons)

- Deepen understanding of equivalence
- Order, simplify and compare fractions, including those greater than one
- Recall equivalence between common fractions and decimals
- Find decimal quotients using short division
 Add and subtract fractions

and length (5 lessons)

5) Missing angles

- Compare and classify a range of geometric shapes
- Use angle facts to find unknown angles

6) Coordinates and shapes (10 lessons)

- Draw a range of geometric shapes using given dimensions and angles
- Describe, draw, translate and reflect shapes on a co-ordinate plane
- Recognise and construct 3-D shapes
- Name and illustrate parts of a circle

7) Fractions (5 lessons)

- Represent multiplication involving fractions
- Multiply two proper fractions
- Divide a fraction by an integer

8) Decimals and measure (15 lessons)

- Use, read, write and convert between standard units of measures; length, mass, time, money and volume as well as imperial units
- Calculate the area of parallelograms and triangles
- Calculate, estimate and compare the volume of cuboids

9) Percentage and statistics (10 lessons)

- Calculate and compare percentages of amounts
- Connect percentages with fractions
- Explore the equivalence of fractions, decimals and percentages
- Calculate the mean
- Construct and interpret lines graphs and pie charts
- Compare pie charts

10) Proportion problems (10 lessons)

- Use fractions to express proportion
- Identify ratio as a relationship between quantities and as a scale factor
- Unequal sharing involving ratio
