1	2	3	4	5	6	7	8	9	10

RATIO
 you are making
 12 cakes for 3
 cakes you use
 120g of flour so
 for 12 cakes
 you would use
 480g of flour

CONVERSION when the
 recipe is kg but your
 weighing scale measures
 in g so you have to
 convert it.

ING

There are 120g of
 Sprinkles and 10
 cakes you put
 12g on each
 cake

Putting it on the
 right decrease so
 it does not burn

Converting
UNITS

3 tea spoons = 1 tablespoon

2 tablespoons = 30ml

If there is 2 eggs
 in a recipe for
 6 people how
 many eggs
 for 12 people
