

End-to-end engineering solutions for  
greater today and brighter future.

# About Vester

## Welcome to Vester

Vester is one of the fastest growing organizations which offers various holistic solutions to several industries across the globe.

Our excellent, meticulous and pocket-friendly engineering solutions help organizations do better and increase their productivity. We are unequivocally committed to help our esteemed customers in accomplishing their growth, achievement, success and sustainability.

# Core Values

Vester Corporation: End-to-end engineering solutions for greater today and brighter future. Committed to engineering excellence globally, we empower progress and elevate industries. At Vester, we simply help you do better.

## Objectives

01

**Cutting-edge Engineering Solutions:** Lead the industry with avant-garde engineering solutions that push the boundaries of what is possible. Foster a dynamic environment that encourages bold ideas, experimentation, and the rapid implementation of groundbreaking technologies.

02

**Global Industry Leadership :** Attain and maintain a position of leadership in the global engineering landscape. Strive for excellence in every project, setting industry standards for quality, reliability, and innovation. By consistently delivering unparalleled value, we aim to be the first choice for clients worldwide.

03

**Client Empowerment and Collaboration:** Forge lasting partnerships with clients by understanding their unique challenges and aspirations. Collaborate closely to tailor engineering solutions that not only meet but exceed expectations. Empower clients to achieve their goals with confidence.

04

**Cultivating a Culture of Excellence:** Nurture a work environment that values excellence, diversity, and collaboration. Invest in the professional growth and well-being of our team, fostering a culture where talent thrives. Uphold the highest standards of integrity and ethical conduct in all endeavors.

# Key Industries

**PHARMACEUTICALS  
BIOTECHNOLOGY  
NUTRACEUTICALS  
API PLANTS**

**CHEMICALS  
INKS & DYES  
PAINTS

EDIBLE OIL**

**AUTOMOBILES  
AUTO-COMPONENTS  
PAINT SHOPS**

**PULP  
PAPER  
BIOENERGY  
BIOMASS**

**WATER TREATMENT  
EFFLUENT TREATMENT  
SEWAGE TREATMENT  
ENVIRONMENT**

**DAIRY  
FOOD PROCESSING  
BEVERAGES  
BREWERIES**

**TEXTILES  
RUBBERS  
PLASTICS  
POLYMER**

**STEEL  
ALUMINUM  
ENERGY  
HEAVY INDUSTRIES  
OIL & GAS**

**EQUIPMENT-  
MANUFACTURERS  
EPC CONTRACTORS  
PROJECT OWNERS  
& MANY MORE**

# Centrifugal Pumps

## Versatile Pumping Excellence Across Diverse Applications

Discover efficiency in motion with our centrifugal pumps. Sourced from top-tier manufacturers, our pumps guarantee reliable fluid transfer, providing seamless solutions tailored for diverse industrial applications. Elevate your operational performance with our curated selection of centrifugal pumps.

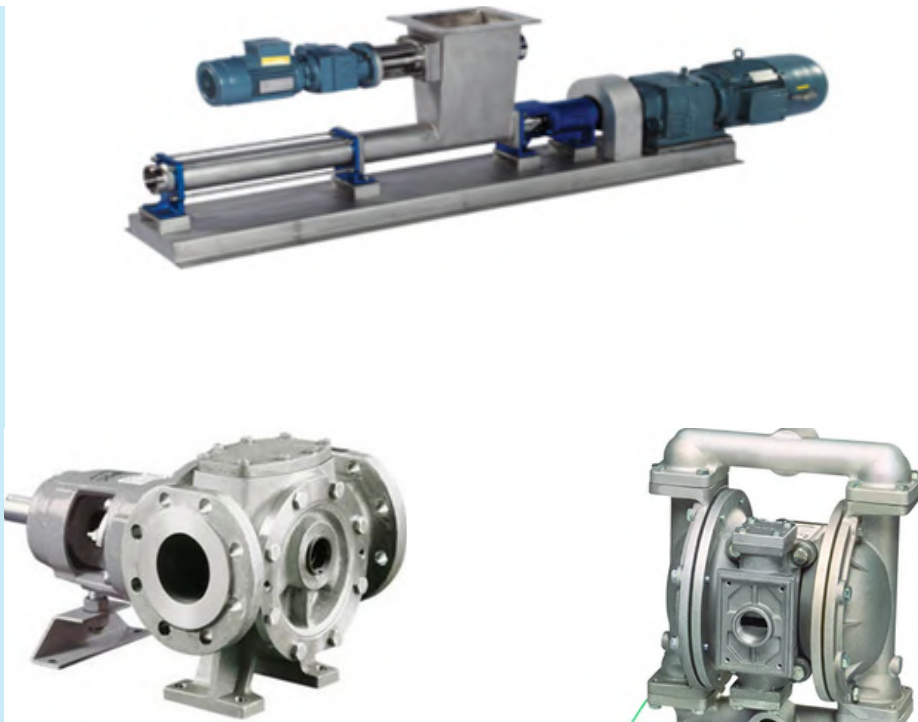

Centrifugal pumps encompass various types, including single-stage and multi-stage configurations, in metallic or non-metallic material, each suited for different application requirements. Additionally, submersible and self-priming variants offer specialized solutions for specific operational needs. Intended for process fluids, water application, firefighting etc.

# Positive Displacement Pumps

## Precise Fluid Handling with Positive Displacement Pumps

Unlock unparalleled precision in fluid management through our range of positive displacement pumps. Engineered for reliability and efficiency, these pumps deliver consistent performance across diverse industrial applications. Elevate your fluid handling experience with our trusted positive displacement pump solutions.

Explore tailored solutions with a variety of positive displacement pump types. From the consistent flow of progressive cavity pumps to the versatility of gear pumps, the reliability of AODD pumps, and the efficiency of lobe pumps, plunger type metering pumps—our diverse portfolio ensures a perfect match for your specific fluid handling needs. Experience precision, reliability, and efficiency with every pump type in our offering.

# Mechanical Seals

## Sealing Excellence Redefined: Vester's Mechanical Seals

Experience superior sealing performance with Vester's precision-engineered mechanical seals. Our seals are crafted with meticulous attention to detail, ensuring leak-free and reliable operation across a spectrum of industrial applications. Elevate your equipment efficiency and reliability with Vester's cutting-edge mechanical seals.

Vester offers a diverse range of mechanical seals tailored to specific applications. From the reliability of double cartridge seals for pumps to the robustness of agitator mechanical seals, our portfolio is designed to meet the unique sealing requirements of various industrial processes. Trust in Vester for innovative and dependable mechanical sealing solutions.

# Industrial Valves

## Flow Control Excellence: Vester's Comprehensive Valve Solutions

Discover precision in flow control with Vester's extensive range of valves, meticulously manufactured and sourced from reputable brands. Our valves ensure seamless regulation of fluids in diverse industrial applications, providing reliability and performance excellence. Elevate your operational efficiency with Vester's advanced valve solutions.

Vester offers a diverse portfolio of valves to cater to various flow control needs. From the precise regulation of globe valves to the robust performance of gate valves, the reliability of check valves, the versatility of ball valves, the efficiency of butterfly valves, and the specialized applications of knife gate valves – our comprehensive selection guarantees a tailored solution for every operational requirement. Choose Vester for cutting-edge valves designed for optimal performance.

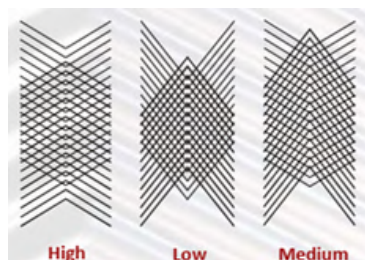

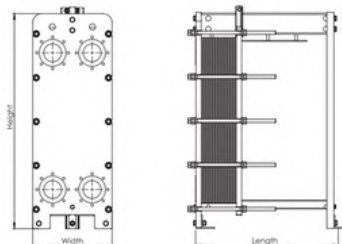

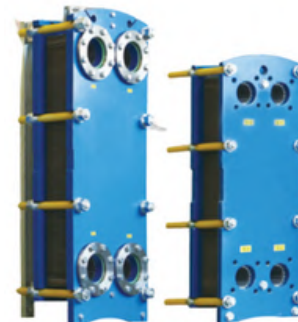

# Plate Heat Exchangers

## Efficient Heat Transfer Solutions: Vester's PHEs

Optimize heat exchange in your processes with Vester's Plate Heat Exchangers. Engineered for efficiency, reliability, and versatility, these exchangers ensure optimal thermal performance in a variety of industrial applications. Trust Vester for cutting-edge solutions in heat transfer.

Explore Vester's diverse Plate Heat Exchanger portfolio, including Gasketed PHEs for flexible and easy maintenance, Stainless Steel PHEs designed for hygienic applications, Semi Welded/Laser Welded PHEs for enhanced durability, and Welded PHEs for robust heat transfer in demanding conditions. With Vester, discover the right Plate Heat Exchanger for your specific heat transfer needs.

# Pressure & Temperature Gauges

## Precision Monitoring with Vester's Instrumentations Solutions

Elevate your monitoring capabilities with Vester's range of high-quality pressure and temperature gauges. Our gauges ensure accurate measurement and reliable performance, providing critical insights into pressure, temperature, vacuum parameters for diverse industrial applications. Trust Vester for precision instrumentation that meets the highest standards of quality.

Explore Vester's comprehensive instrumentation lineup, including bourdon type pressure gauges for precise pressure measurement, temperature gauges for accurate thermal monitoring, thermowells for sensor protection, vacuum gauges for absolute pressure measurement, compound gauges for dual-scale readings, and pressure calibrators for maintaining accuracy. Our curated selection guarantees reliable and precise monitoring solutions for various industrial needs.

# Other Industrial Supplies

## Elevating Industry Excellence: Vester's Leading-edge Integrated Industrial Solutions

Step into a realm of operational brilliance with Vester Corporation. Our leading-edge industrial solutions define a comprehensive array of high-quality supplies, meticulously crafted to uphold the highest industry standards. Each product reflects a seamless fusion of reliability and innovation, setting the stage for industry excellence.

Embark on a journey of enhanced machinery performance with Vester's extensive range of precision-engineered solutions. From electric motors and industrial gearboxes to vacuum pumps, vacuum solutions, and axial flow pumps, our offerings stand as a testament to our commitment to delivering innovative and reliable solutions tailored to diverse industrial needs. Choose Vester for special white metal bearings, standard bearings, superior gaskets, view glasses, pipes and fittings, sanitary fittings, and calibration services, showcasing our unwavering dedication to excellence.

# Spares & Servicing

## 01 REPAIR & SERVICE

Trust Vester for expert repair and servicing of pumps, seals, valves, and heat exchangers. Our skilled technicians swiftly diagnose and address issues, restoring optimal functionality.

## 02 OVERHAULING & RECONDITIONING

Vester excels in comprehensive overhauling of pumps, seals, valves, and heat exchangers, tanks, silos, reactors, agitators etc. Our skilled team replaces worn components, breathing new life into your equipment for enhanced efficiency.

## 03 ERECTION & COMMISSIONING

Rely on Vester for seamless erection and commissioning of pumps, seals, valves, heat exchangers, piping, ducting, and projects. Our experienced team ensures proper installation for a smooth transition to full operational capacity, guaranteeing excellence in every commissioning endeavor.

## 04 SPARE PARTS REPLACEMENT

Elevate equipment reliability with Vester's genuine spare parts replacement. Our high-quality, manufacturer-approved parts restore original specifications, minimizing downtime and maximizing performance.

# Contract Maintenance

## Reliable Maintenance Solutions with Vester' AMC

Ensure the sustained performance of your industrial equipment with Vester's Contract Maintenance services. Our proactive approach and skilled technicians safeguard your pumps, motors, gearboxes, blowers, cooling towers and other critical equipment, minimizing downtime and maximizing operational efficiency. Embrace peace of mind with our customizable Annual Maintenance Contracts (AMC), ensuring comprehensive care tailored to your specific needs

### Minimized Downtime, Maximized Efficiency

Choose AMC with Vester to minimize downtime and maximize operational efficiency. Our strategic approach includes preventive measures, swift repairs, and tailored care plans, ensuring consistent peak performance.

### Proactive Preservation

Opt for Vester's Contract Maintenance to proactively preserve the precision and reliability of your industrial equipment. Our skilled technicians conduct regular inspections, addressing potential issues before they escalate.

### Our Professional Approach

At Vester, Contract Maintenance is executed with professional precision and world-class standards. Our experienced technicians follow meticulous procedures, conducting routine checks, implementing preventive measures, and addressing issues promptly to enhance longevity and performance.

# HVAC, Utility Services

## Integrated HVAC and Utility Solutions: Ensuring Operational Excellence

Vester stands at the forefront as a distinguished provider of HVAC and utility services, catering to both industrial and commercial applications with unparalleled expertise. Our team, comprised of adept technicians and engineers, specializes in the meticulous design, installation, and maintenance of heating, ventilation, air conditioning, and refrigeration systems. Additionally, our utility services encompass the installation, repair, and inspection of electrical systems, ductwork, and gas lines. Through a commitment to excellence, Vester delivers world-class solutions, ensuring optimal functionality and reliability for our clients' diverse operational needs.

### HVAC Services

Vester's HVAC services, executed by skilled professionals, encompass the design, installation, and maintenance of heating, ventilation, air conditioning, and refrigeration systems for optimal climate control.

### Utility Services

Our utility services, conducted with precision, include electrical, ducting, and gas line installations, repairs, and inspections, ensuring seamless and efficient operational infrastructure.

### Conditional Monitoring

Vester's condition monitoring services employ advanced techniques, providing real-time insights into equipment health and performance, enabling proactive maintenance strategies for uninterrupted operations.

# Equipment Manufacturing

## Innovative Engineering Mastery: Vester's Precision-Crafted Equipment Solutions for Unmatched Industry Excellence

Vester Corporation's Equipment Manufacturing division redefines industry standards with an unwavering commitment to innovation, precision, and reliability. Immerse yourself in a realm of bespoke solutions, each meticulously crafted to elevate operational efficiency. Our adept team blends engineering mastery with cutting-edge technology to deliver equipment solutions that stand as a testament to our dedication to unmatched industry excellence, consistently exceeding the expectations of our diverse clientele.

### Mixing & Grinding

Elevate your processes with state-of-the-art equipment such as inline powder mixers, agitators, reactors, silos, dispersers, and bead mills. Each exemplifies our dedication to optimizing blending and grinding processes, ensuring superior performance and reliability.

### Process Equipment

Immerse yourself in operational efficiency with Pasteurizers, Homogenizers, and Packing Machines designed to seamlessly integrate into diverse industrial workflows. Precision-engineered, these solutions uphold the highest standards of performance and reliability.

### Special Purpose Machines (SPM)

Unleash bespoke solutions with our capabilities in designing and manufacturing Special Purpose Machines (SPM). Tailored to specific needs, these machines exemplify our commitment to meeting unique industrial requirements with ingenuity and expertise, ensuring unparalleled functionality and adaptability.

# Projects, Turnkey Solutions

## Exemplary Turnkey Project Execution: Precision in Every Phase

Vester excels in the seamless execution of turnkey solutions for diverse plants and processes. From project inception to final commissioning, our dedicated team ensures precision in every stage, delivering fully integrated and operational solutions tailored to your specific industrial needs.

## EPC Projects

Vester excels in delivering end-to-end EPC (Engineering, Procurement, and Construction) projects, providing comprehensive solutions across various industrial sectors. Our skilled team ensures seamless project execution, from initial planning and procurement to construction and final commissioning.

## Plant & Process Automation

Experience the pinnacle of industrial innovation with Vester's expert services in plant and process automation. From advanced IoT solutions to meticulous PLC and SCADA programming, our team handles the entire spectrum of design, development, integration, and deployment. Trust Vester to elevate your operations through cutting-edge automation technologies.

# Our Super Team

## Ranjit Panigrahi

With a wealth of experience exceeding 15 years, Ranjit in the field of mechanical seals, pumps, valves, and fluid handling guides Vester towards cutting-edge solutions, ensuring our clients receive the pinnacle of expertise.

## G P Mohanty

Bringing forth over 15 years of invaluable expertise in pumps, equipment manufacturing, EPC projects, and turnkey solutions, G P Mohanty at Vester fuels innovation, ensuring unparalleled success in every endeavor.

# Competitive Advantage

## Cutting-Edge Fluid Solutions

Vester leads with cutting-edge fluid solutions, integrating advanced technologies for optimal engineering performance.

## Strategic Client-Centric Partnerships

Vester cultivates strategic client-centric partnerships, ensuring tailored engineering solutions that align with and surpass client expectations.

## Global Solutions with Local Precision

Vester delivers global solutions with local precision, seamlessly integrating international expertise to tailor solutions for local markets.

## Sustainability in Engineering Excellence

Vester champions sustainability in engineering excellence, integrating eco-conscious practices into every solution.

## Experienced In-House Engineering Experts

Vester relies on an experienced in-house team of engineering experts, bringing seasoned proficiency to every project for unparalleled results.

## Optimized Turnkey Project Delivery

Vester excels in optimized turnkey project delivery, seamlessly orchestrating every aspect to ensure efficiency and timely execution.

# Global Reach

## Because, we're here to help

We extend sincere appreciation for the privilege to contribute to your journey of success. Our aspirations for Vester encompass strategic growth, global leadership, sustainable impact, and a distinctive brand presence. Your ongoing support is pivotal in realizing these ambitions as we collectively shape a successful future for Vester and your firm.

## Strategic Collaborations

In our pursuit of excellence, we proudly collaborate with industry leaders like Ingersoll Rand (Progressive Cavity Pumps), Kains Instruments, Crompton Greaves, Alfa Pumps, and other esteemed partners. These collaborations empower us as authorized dealerships and distributors, ensuring access to cutting-edge technologies and world-class products for our valued clientele.

## Driving Sustainable Growth

At Vester, we shape a legacy of positive impact. Our commitment to sustainable growth goes beyond business—it's a pledge to contribute meaningfully to the world. Through responsible practices, we create a ripple effect of change. From eco-friendly operations to community initiatives, at Vester, the possibilities for a sustainable and thriving future are limitless.
