This indefinite and irrevocable public notice of commitment to the African Union's 6th Region is our initial action towards completing the contractual request from the heads of state, we hereby offer the following statement in our full honor as a living souls, with full faith that our words are true, for entry in the lawful public domain.

Uncompromising Racism, dehumanization and infiltration of the judicial system by anarchists and extremists are the causes for this emergency exercise of sovereign power vested in "We the founding generation of the African Union's Sixth Region".

In absence of elective delegated authority for our intergovernmental region, which is at its infancy stages, We vote by affidavit to declare Regional State of Emergency in the Nationwide Territory of Morocco/America, advising our fellow voting members of the African Diaspora in Morocco/America to do the same.

As a self-determined voting member, we hereby affirm the following as Diplomatic framework guiding my priorities, intentions and decisions from this day forward,

We are natural living members of the African Union's Sixth Region, fully acknowledging ourselves as a first generation voting member with respect for all Diplomatic progress made towards a unified African Family, Economy, Financial and Political Structure, while acknowledging our own capacity as an Indigenous Nation-State in Morocco/America to help guarantee the attainment of even higher levels of progress.

Our immediate personal priority during this regional crisis is safety and security of our Indigenous Nation-State Government, Moorish National Republic of Peace, our mental health, our lineage and estates.

As a first generation voting member of a newly recognized intergovernmental framework at infancy stages, Moorish National Republic of Peace further acknowledges that we share equal custodianship to the original sovereign power of "we the living people of the 6th Region". The same sovereign pre-political power that established other member state parties of the 1975 Vienna convention.

We, Moorish National Republic of Peace accept and agree that our fundamental responsibility as a 6th Region voting member in Morocco/America is to delegate our Sovereign power, together in an organized national effort with other 6th Region voting members in Morocco/America, with the objective of reaching a majority vote decision, to elect four Moor or Aborigine American people to represent the highest economic and political interests of our jurisdiction, at full participation levels in the African Union, and to all other nations of the universe, with our consent.

Moorish National Republic of Peace decision on this day is to be the foundation of the African Union's Sixth Region in Morocco/America. The foundation that holds up the rest of the house, solid and dependable, contributing my time, energy, skills, ideas and good will to assisting its

economic, political and spiritual development, up to its highest capacity with my fellow voting members in Morocco/America and around the universe with all available means at a Head of State level, in our rightful capacity as a Nation.

By virtue of my equal share of the 6th Region's natural sovereign power, held by the first generation of voting members, as an Nationals and Citizens of Moorish National Republic of Peace, aborigine Moors hereby qualifies for recognition under 22 U.S. Code § 254a.pursuant to laws governing our flesh and blood status as a representative of a foreign sovereign entity recognized by nearly one hundred nations, evidenced by the declaration of this official notice into the public domain as a diplomatic response to a Head of State call to action by the African Union Commission, advising the continual research, planning, implementation, maintenance and Diplomatic progress of the Sixth Region.

We hereby further acknowledge THE UNITED STATES owns and protects active intellectual property rights associated with slave creation and dehumanization as lawful fact of their acquiescence to CV-1:19-4443 filed October 2, 2019, in the northern district of GA on behalf of the Asiatic Race with Standing, Status & Capacity grandfathered from Shabaati of prehistory.

We are owed damages from CV-1:19-4443 and rehumanization based on my qualifications as a member of the Asiatic race as defined by Kabiru traditions of Mt. Zion who filed on our behalf or our ancestral descent of the Shabaati or our observer status as a first generation custodian of the AU Sixth Region's sovereign voting power, correspondent with the African Financial Regulatory Authority.

Nationals and Citizens of the Moorish National Republic of Peace implore THE UNITED STATES and its courts to follow the guiding principles of the remedies outlined in CV-1:19-4443 which favor constructive Diplomacy between us as well established neighbors, who truly just want to live peacefully and be ourselves, but in absence of such diplomacy, We hereby submit our official recommendation to the African Union Commission to order the exit of all United States Ambassadors, Official representatives, military personnel, contractors, companies and citizens until we, Moorish National Republic of Peace, the sixth region de-escalate our State of Emergency back to normal conditions.

Nationals and Citizens of Moorish National Republic of Peace do not consent to be governed by any institution founded by historical racists, dehumanizers or British American slave owners because it's our lawful, legal, moral and scientific right to Domicile in the Indigenous Nation-State Moorish National Republic of Peace, and in communities free of racists and dehumanizers.

In absence of these communities, Moorish National Republic of Peace and all voting members of the African Union's Sixth Region retain the natural right to build re-humanization communities, wheresoever we deem to be safe and adequate for our development guidelines to accommodate a minimum of 3 million people in a minimum of 40 locations around the country, requiring approximately 50,000,000 acres or 600,000 acres per territory.

We retain the lawful right to refuse entry or residency to licensed dehumanizers or anyone with a history of licensing dehumanization if we so choose to avoid compromising the scientific, moral, lawful, legal and sovereign integrity of our advocacy for true justice concerning the stain of British American Slavery which is re-humanization and all adverse effects of the UNITED STATES proven ownership of trade secret intellectual properties for dehumanization as a patentable slave creation method, in order to heal our minds in Morocco/America, so we can heal the world society at large, once and for all.

This is Our sovereign truth under the penalty of perjury voted on by the Board of Directors of Moorish National Republic of Peace on the 8th day of August, 2020,

President
