

ST
SUPERTERMO
POWERBOATS

- SuperTermoli lines of models are high-speed powerboats specifically designed for Special Operations.
- All SuperTermoli powerboats have been designed and developed to operate under the most difficult conditions and have proven to be reliable and efficient in almost any sea conditions, both for pleasure and military use.
- We work together with our clients to design and build the powerboat in accordance to their needs. We are extremely passionate about the handmade boats we produce. We introduce a new breed of design style and luxury.
- What distinguishes our models from the competition is the high-speed maneuverability and seaworthiness at extreme speeds.
- Our powerboats work at speeds over 60 knots, in total safety even in rough waters. It can reach a top speed of more than 70 knots and can carry a crew of 20 people for special missions.
- All SuperTermoli models are made to offer reliability and endurance under extreme situations that long range operations demand, maintaining speeds of 60 knots especially for Anti-Smuggling operations, or Search and Rescue (SAR) ops.
- All models are created as highly capable fast powerboats for tomorrow's defense and law enforcement duties. Advanced composite materials and technologies are used extensively to Maximize: Range, Mission Payload, Speed, Shallow Water Capabilities, Reliability/Availability, Maintainability and Multi-Mission Capabilities.
- SuperTermoli works within high Standards, therefore military and pleasure Clients can be assured that the Company will attain the quality and accuracy required.

Supertermoli ST60 Interceptor

This fabulous off shore high speed boat represents the attack boat, obtained by the high speed performance the first patrol boat obtained by the excellent and safety buoyancy.

The hull of **SuperTermoli** powerboat has been proven as seaworthy and high performance designed to reduce drag and friction while providing extra lift force. Designed for special corps, this craft is suitable for missions such as:

Coast Guard

Special Operations

Portal / Escort / Fast Attack

Search and rescue

Sea ambulance

Anti-smuggling

Nave Seals

Surveillance / Covert surveillance

Intrusion

“Hit and Run”

Commando operations

Offshore interception

- The engines we recommend for **ST60**, 4 x 800hp SEATEK diesel engines with JOLLY DRIVE Special surface drives or 2 x 1300hp SEATEK or 2 x 1500hp SEATEK

- **STANDARD SPECIFICATIONS**

- **Length Over All** **18,60 m**
- **Beam Max** **3,40 m**
- **Draft** **1,00 m**
- **Height Max** **2,80 m**
- **Displacement when empty** **12 tons**
- **Displacement fully loaded** **16 tons**
- **Fuel tank capacity MGO** **4.000 lt**
- **Fresh water tank capacity** **200 lt**
- **Max speed at 3.100RPM at light conditions** **>70 kn**
- **Range** **>300 ml**
