

BUNT FOR A HIT WITH BASES EMPTY

Sometimes, the Manager-at-Bat states his intention for his batter to bunt with the Bases Empty. In this scenario, the batter will attempt to surprise the team-in-the-field and bunt for a **“HIT.”** Of course, this would be more common (and makes more sense) for a batter who has a good BUNT #, especially BUNT #1 or #2.

HOW TO BUNT FOR A HIT WITH BASES EMPTY

After the Manager-at-Bat has stated his intentions to BUNT FOR A HIT WITH BASES EMPTY the procedure is as follows:

(1) CHECK THE BUNT # OF THE BATTER (found at the bottom of the batter's card).

(2) NEXT, ROLL ALL THREE DICE AND TAKE THE RESULT DIRECTLY TO THE BUNT FOR A HIT WITH BASES EMPTY BOARD (below).

NOTE: WHEN USING THE BUNT FOR A HIT WITH BASES EMPTY BOARD DO NOT GO TO THE PITCHERS' BOARD OR ANY OTHER GAME BOARDS. For example, if a batter with a BUNT #2 is attempting to BUNT and an A-7 is rolled, the batter would XXXXXXX. If an E-6 is rolled the batter would be **“OUT.”**

DEFENSE OPTION ON BUNT FOR A HIT WITH BASES EMPTY BOARD. As you notice on all BUNT #s on the BUNT FOR A HIT WITH BASES EMPTY BOARD, the letters A, B, C, D, E & F along with the numbers 10, 11 & 12 become special BUNT situations. These are DEFENSE OPTIONS involving the catcher, first baseman, or third baseman. For instance, if a batter with a BUNT #2 is attempting to BUNT FOR A HIT and a roll of B-11 occurs, you must check the FIELDING # of the first baseman. If the first baseman has a FIELDING #1 or #2 - the batter would be **“OUT,”** #3, #4 or #5 - the batter would b,” and #6 – the runner would be **“SAFE”** while the batter would go to first base with a **“HIT.”**

NOTE: FOR MOST REALISTIC BASEBALL ACTION DO NOT ABUSE BUNTING FOR A HIT WITH BASES EMPTY.
