

MOBILE AND MANEUVERABLE BALLISTIC PROTECTION

Universal Distribution, Logistics, and Solutions along with our partner, Mitigation Technologies present the **ActiveShooter** line of Ballistic Rolling Panels. These maneuverable panels offer shielding during engagements with potentially armed subjects or during Mass Attack events. A wide range of options are available based on mission, function, and requirements.

Corporal Tuff Model

Sergeant Santiago Model

Engineered to provide mobile ballistic protection with a range of NIJ ratings for:

- Police/Law Enforcement
- Entry Control Points
- Courthouses

- Critical Infrastructure
- Ports and Borders
- Mass Gathering Facilities
- High-Visibility Facilities

**Transportable
Protection**

**Easy to
Maneuver**

**NIJ Levels III,
IV, and IV+**

MITIGATION TECHNOLOGIES

The **ActiveShooter** line of Ballistic Rolling Panels provide a wide range of mobile and maneuverable shielding options based on protection requirements. These ballistic panels are easily maneuverable by one person and provide a position of safe cover during an Active Shooter or Mass Attack event. Each of these rolling panel options are proudly made in the U.S.A. and are manufactured and tested to meet or exceed the required NIJ level. While standard dimensions are listed below, each of these options may be customized (color, length, width, organizational or departmental decals, etc.). Independent test data and in-house test documentation confirming conformance with the selected ballistic rating are included in each shipment.

SERGEANT MAJOR STAN – INTERIOR BALLISTIC ROLLING PANEL – VERTICAL CONFIGURATION

The Sergeant Major Stan is a low-profile upright/vertical ballistic rolling panel designed as a moveable barrier for interior environments to include courthouses, schools and universities, hotels, airport security checkpoints, internal visitor control centers, offices, commercial facilities, and residences located in high-risk areas.

- Includes a durable coating for a long-life finish and four full-lock casters. Available in NIJ Rating III, IV, or IV+ configurations. Optional: Colors, quick-release tackboard/customized signs, and T-Slot for engagement.
- Two Designs/Dimensions Available: 36"W x 72"H or 48"W x 72"H.
