

## Four Paths

1. **Make Your Impact Program** – Discovery meeting, determination of non-profit alignment to your purpose and model, custom strategy preparation, four quarterly impact reports and communications recommendations.
2. **Development Planning** – formulating a strategic plan to achieve your philanthropic goals based on input.
3. **Development Execution** – filling gaps between staffing or fulfilling special projects or events.
4. **Your Idea** – doing the work you need when you need it and how you need it. This path could include sharing with your employees about what you have already supported and arranging an impact visit.

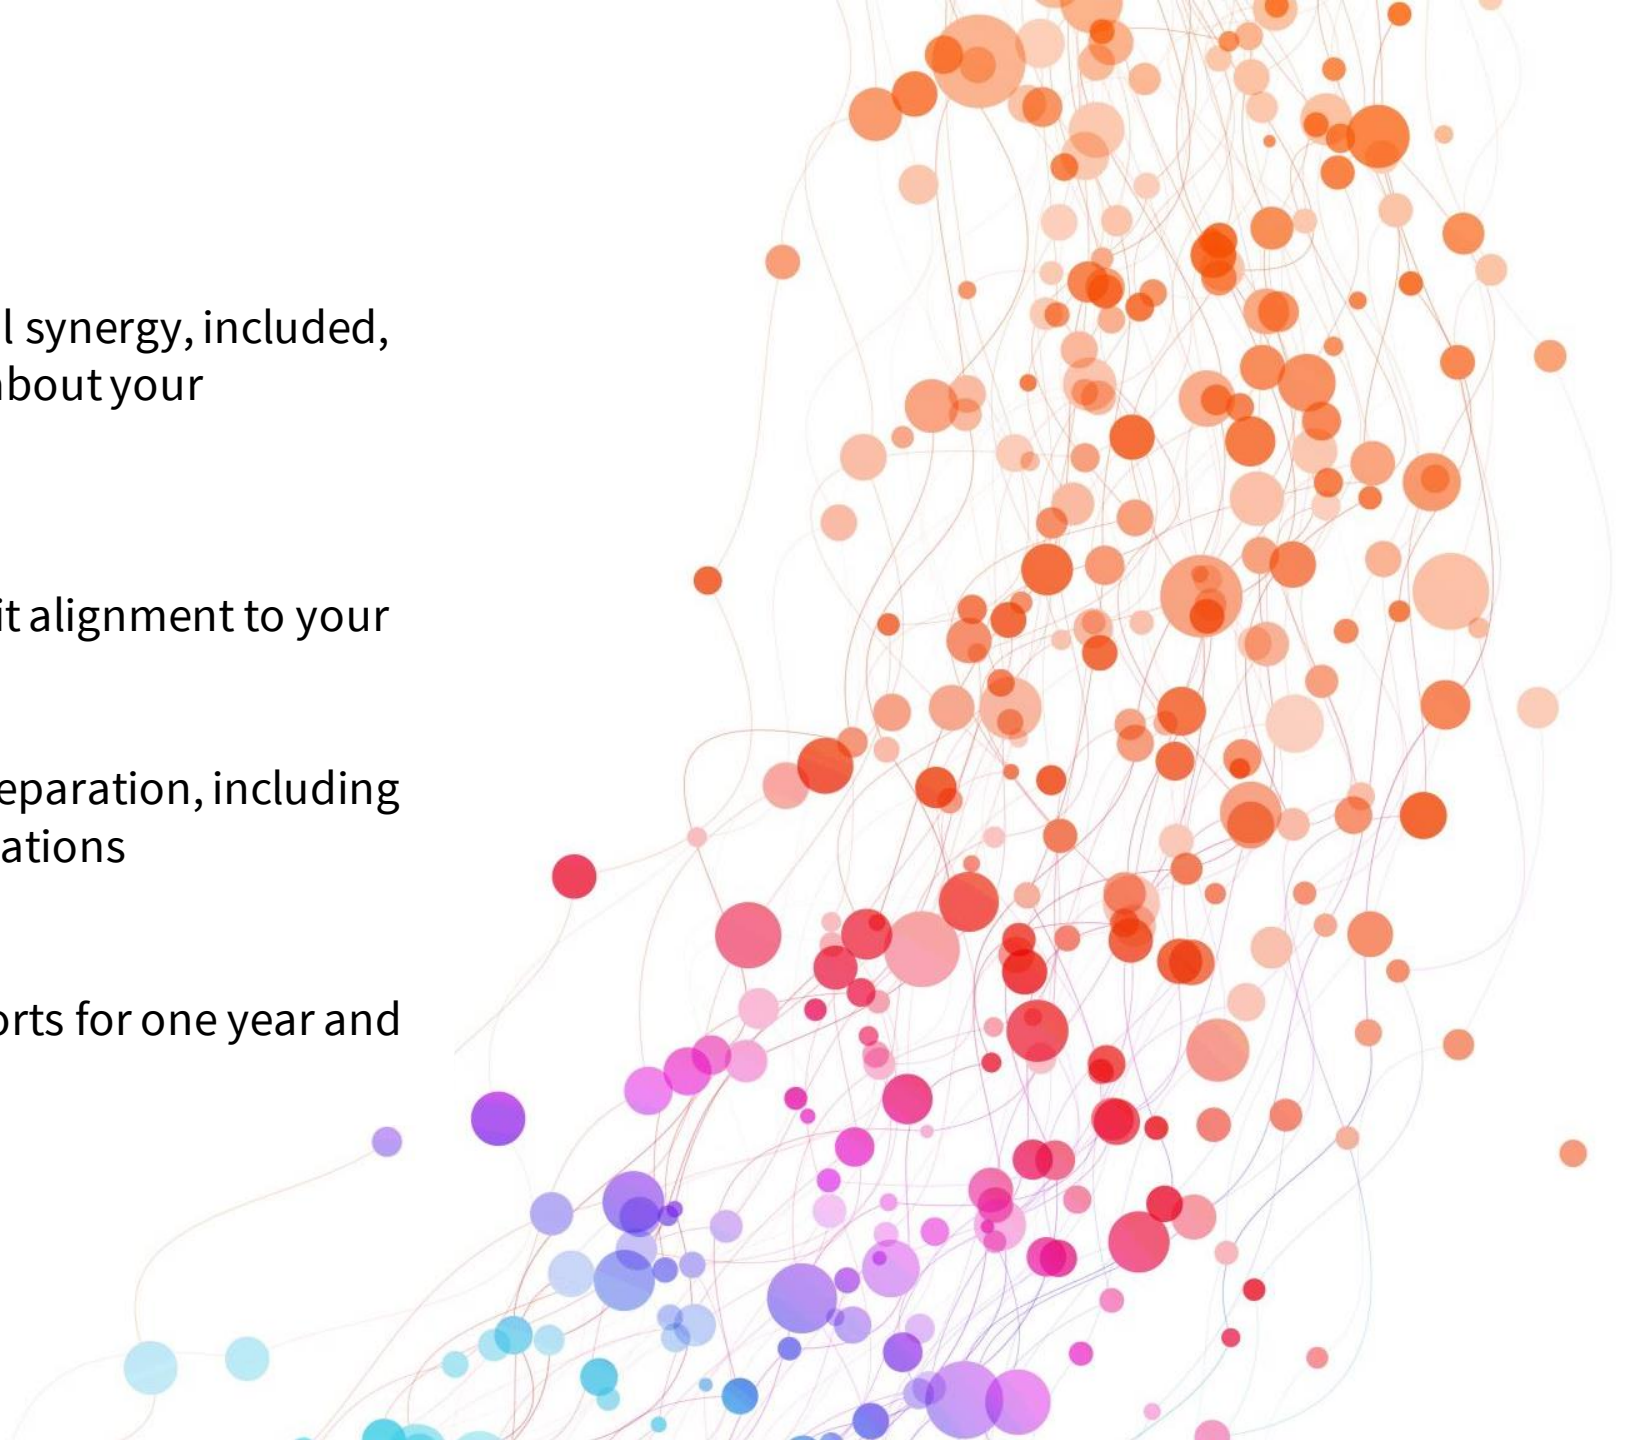

## 1. Make Your Impact

Discovery meeting for potential synergy, included, followed up by questionnaire about your philanthropic strategy

Consultant hours:  
7 hours to determine non-profit alignment to your purpose and model

14 hours of custom strategy preparation, including impact options and communications recommendations

Plus four quarterly impact reports for one year and communication highlights

## Non-profits hard at work

I can recommend by experience non-profits who address these causes with a high efficiency ratio:

Women's economic opportunity in the US and abroad

Maternal health programs in Africa

Empowering Latin American communities

Community self-reliance

Education

Water, sanitation, health and hygiene in India

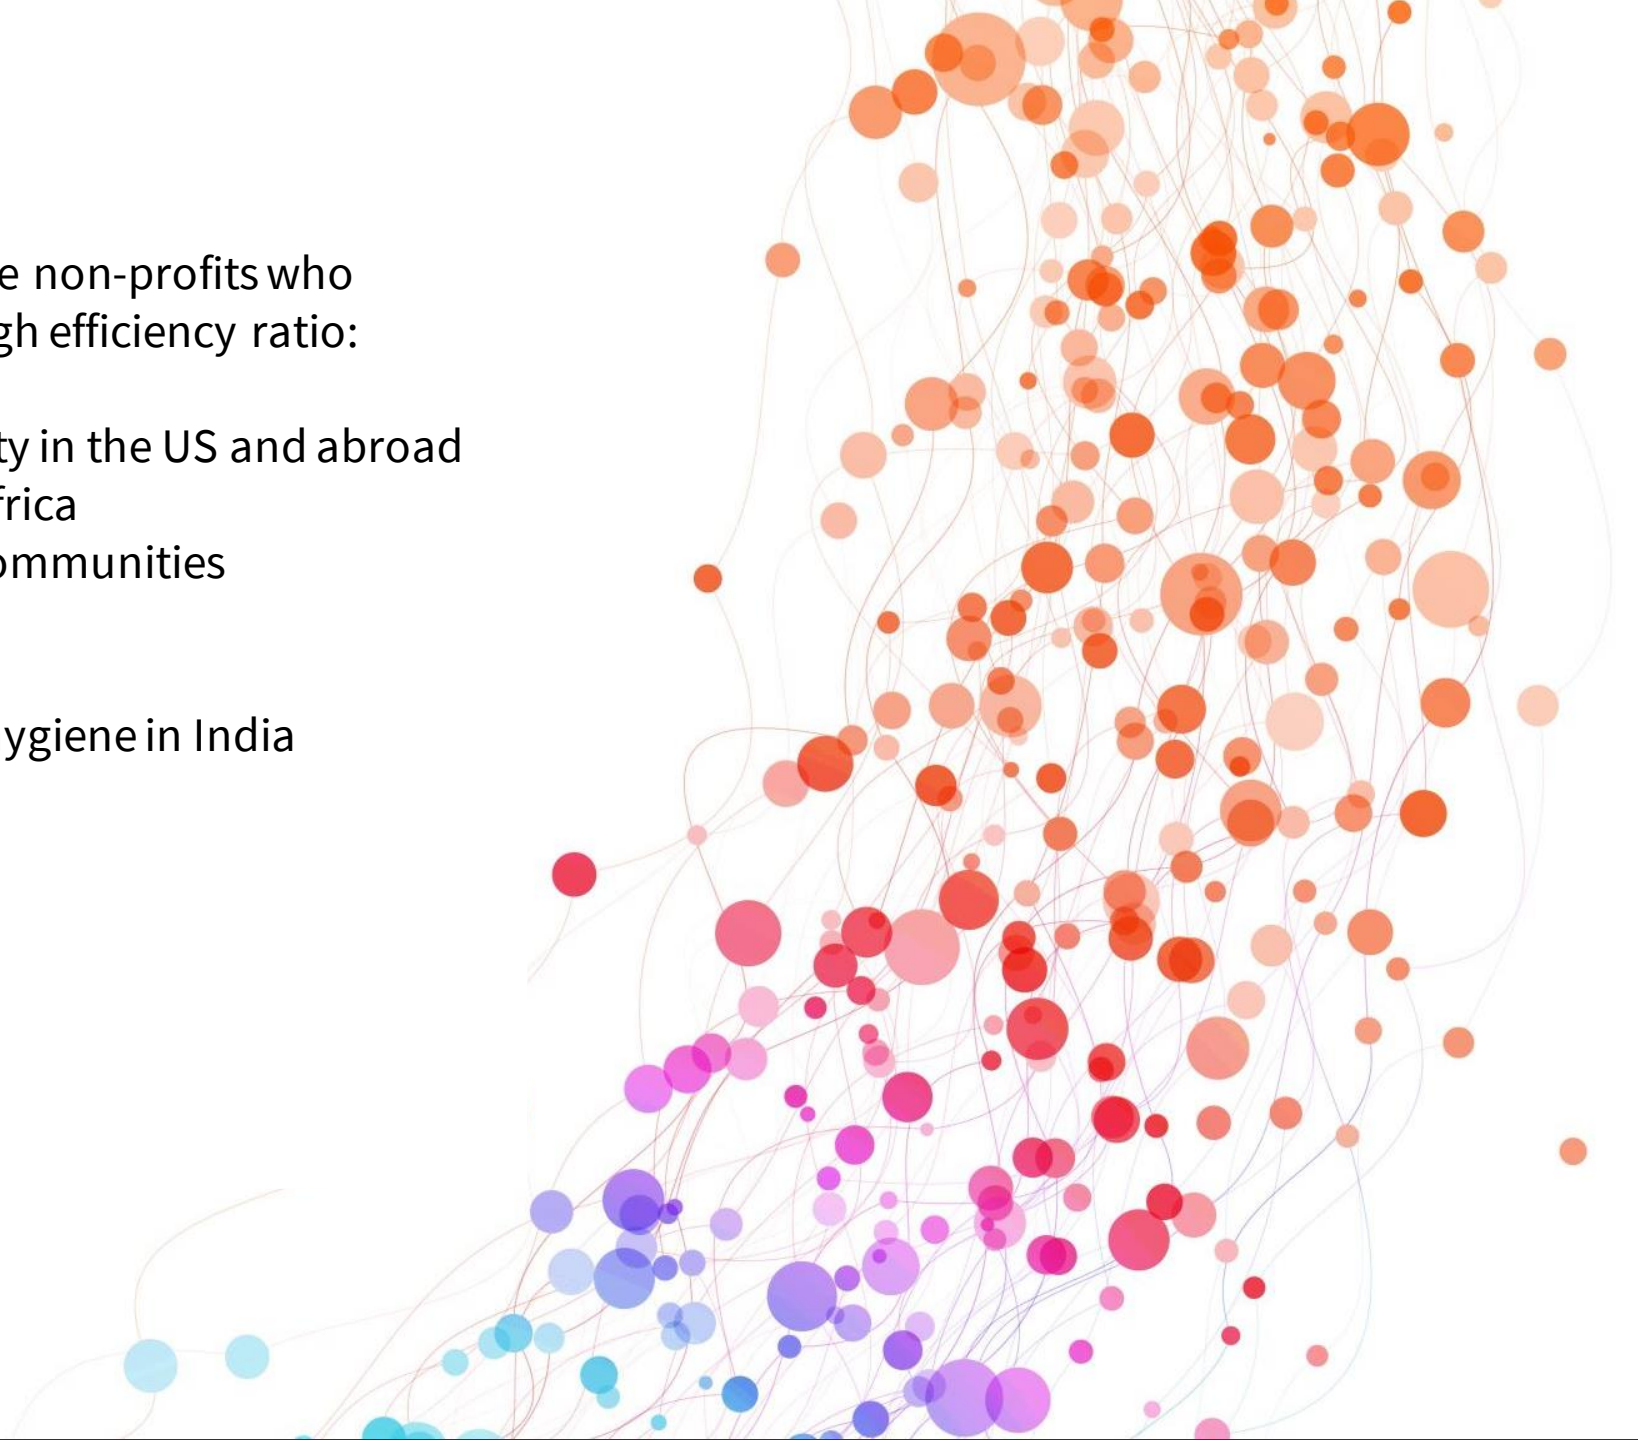

Climate resilience

Healthy food access

Nutrition

Refugee services

Is there a charity you prefer?

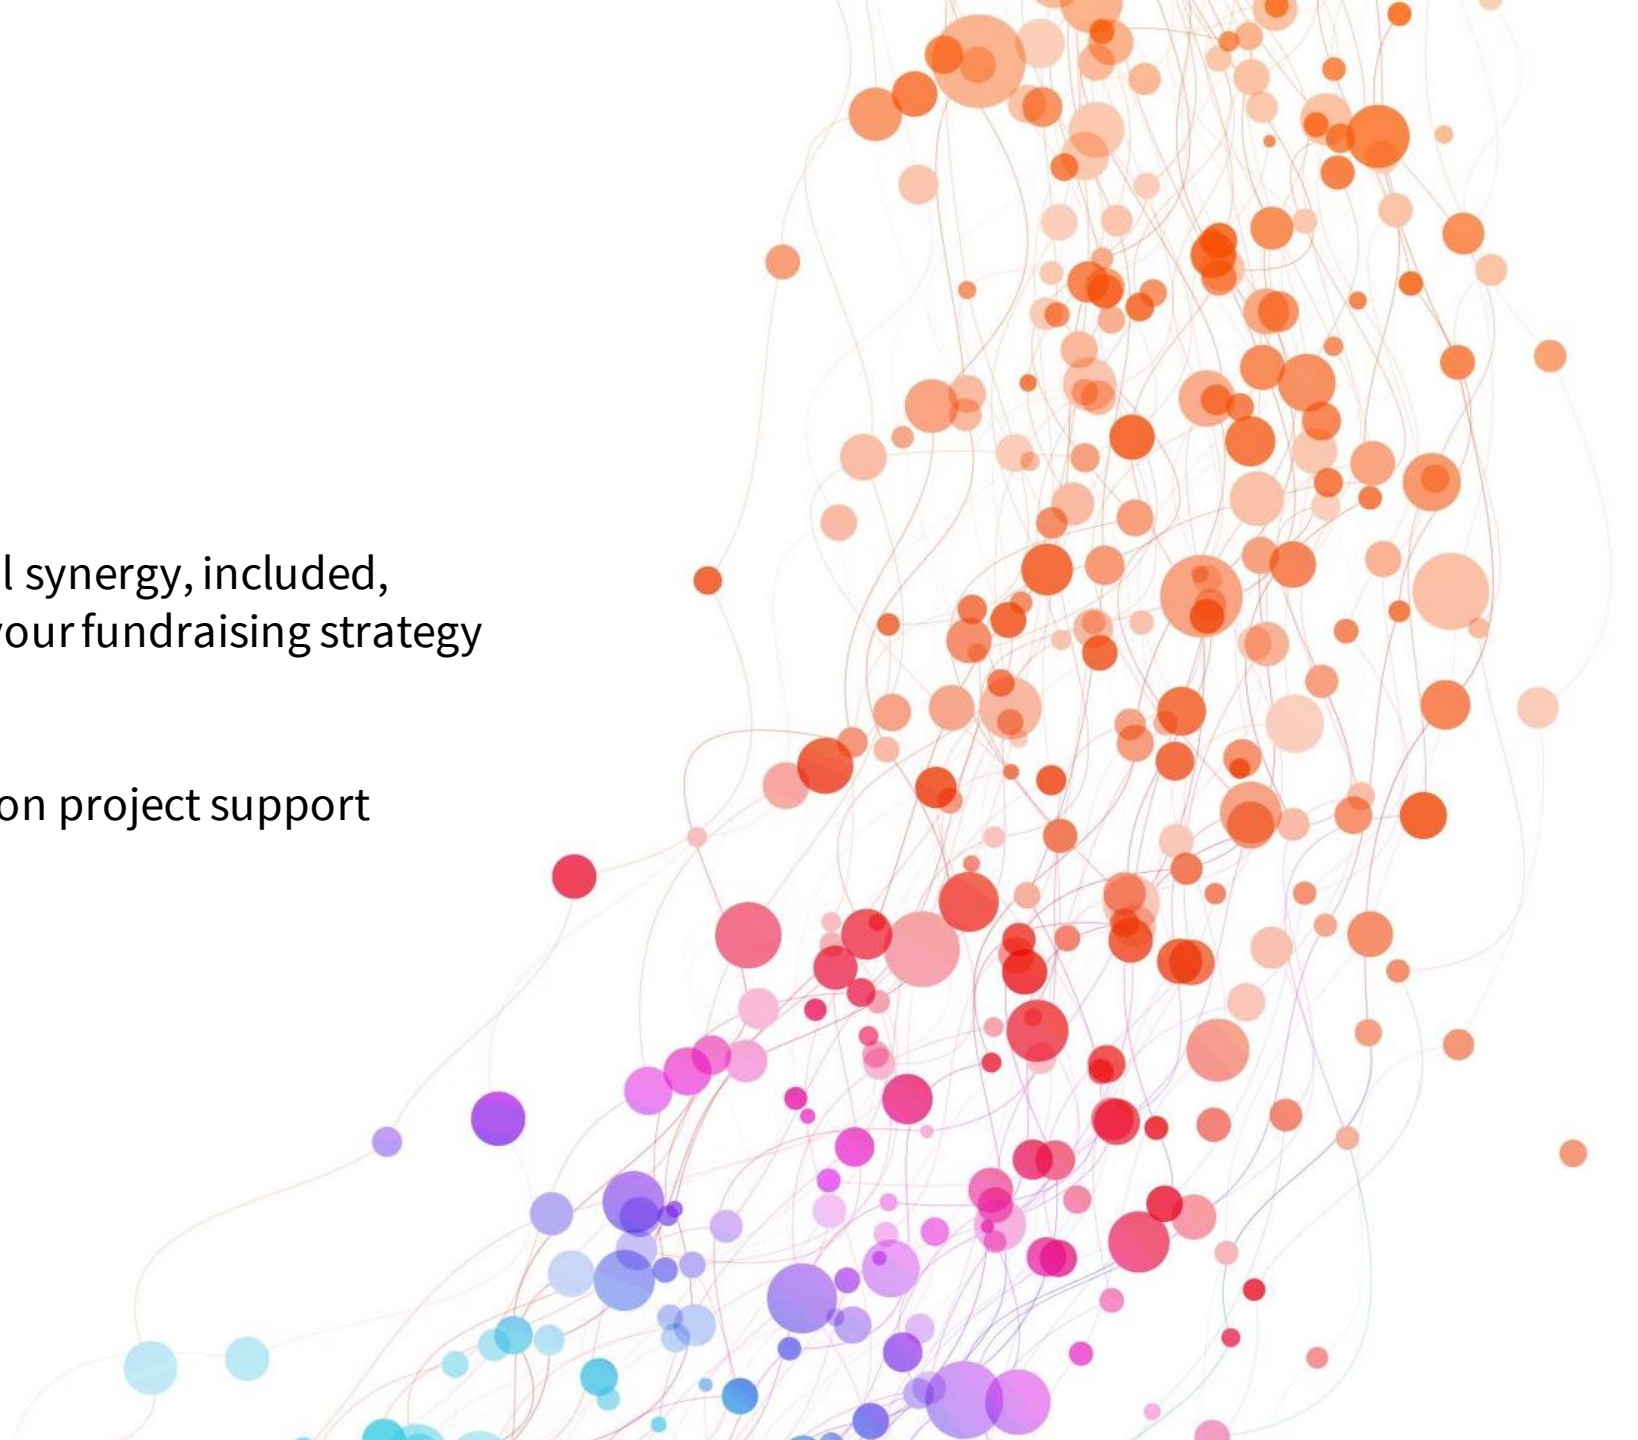

## 2. Development Planning

Discovery meeting for potential synergy, included,  
followed by questionnaire on your fundraising strategy

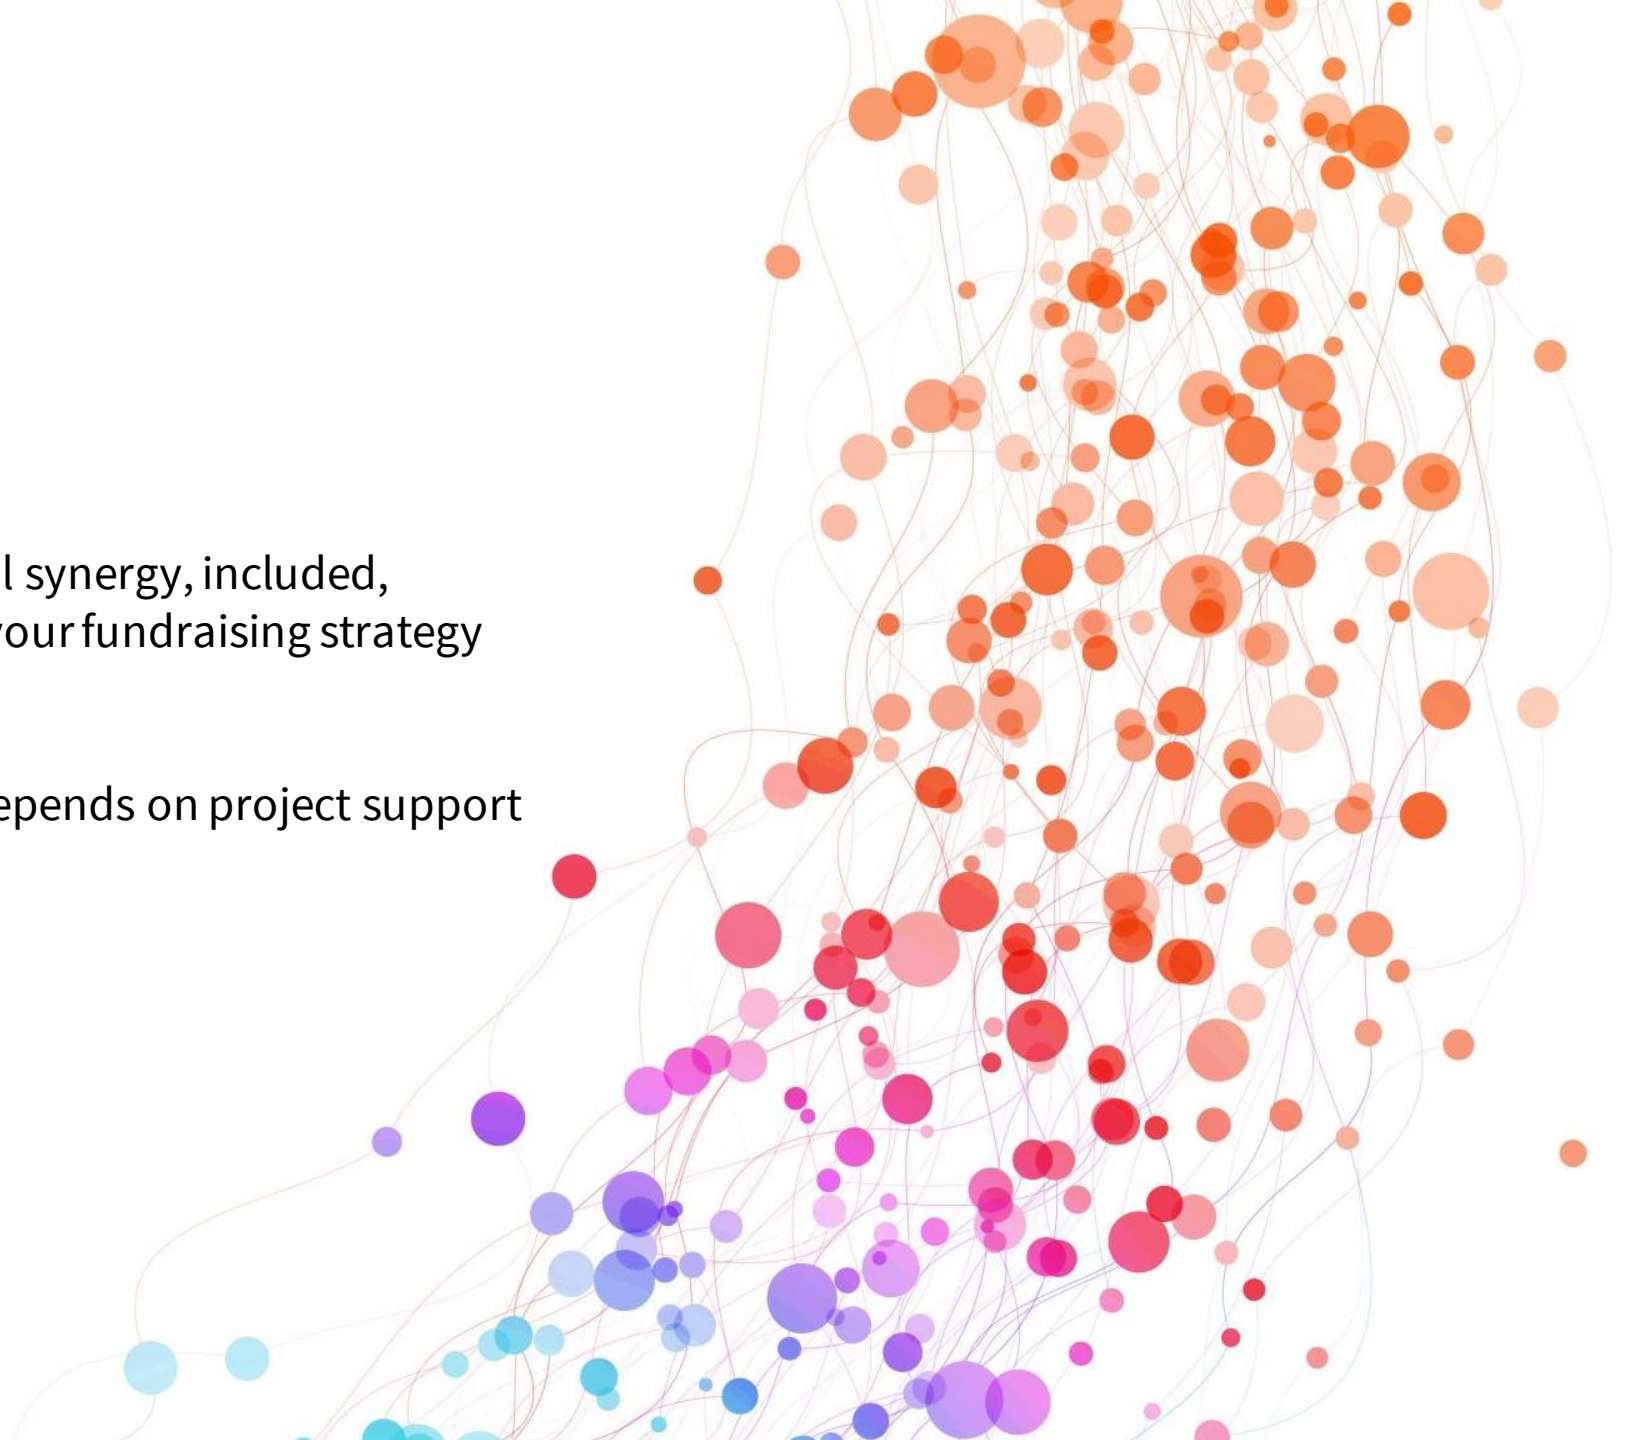

Consultant hours:  
Custom work, length depends on project support  
needed

### 3. Development Execution

Discovery meeting for potential synergy, included,  
followed by questionnaire on your fundraising strategy

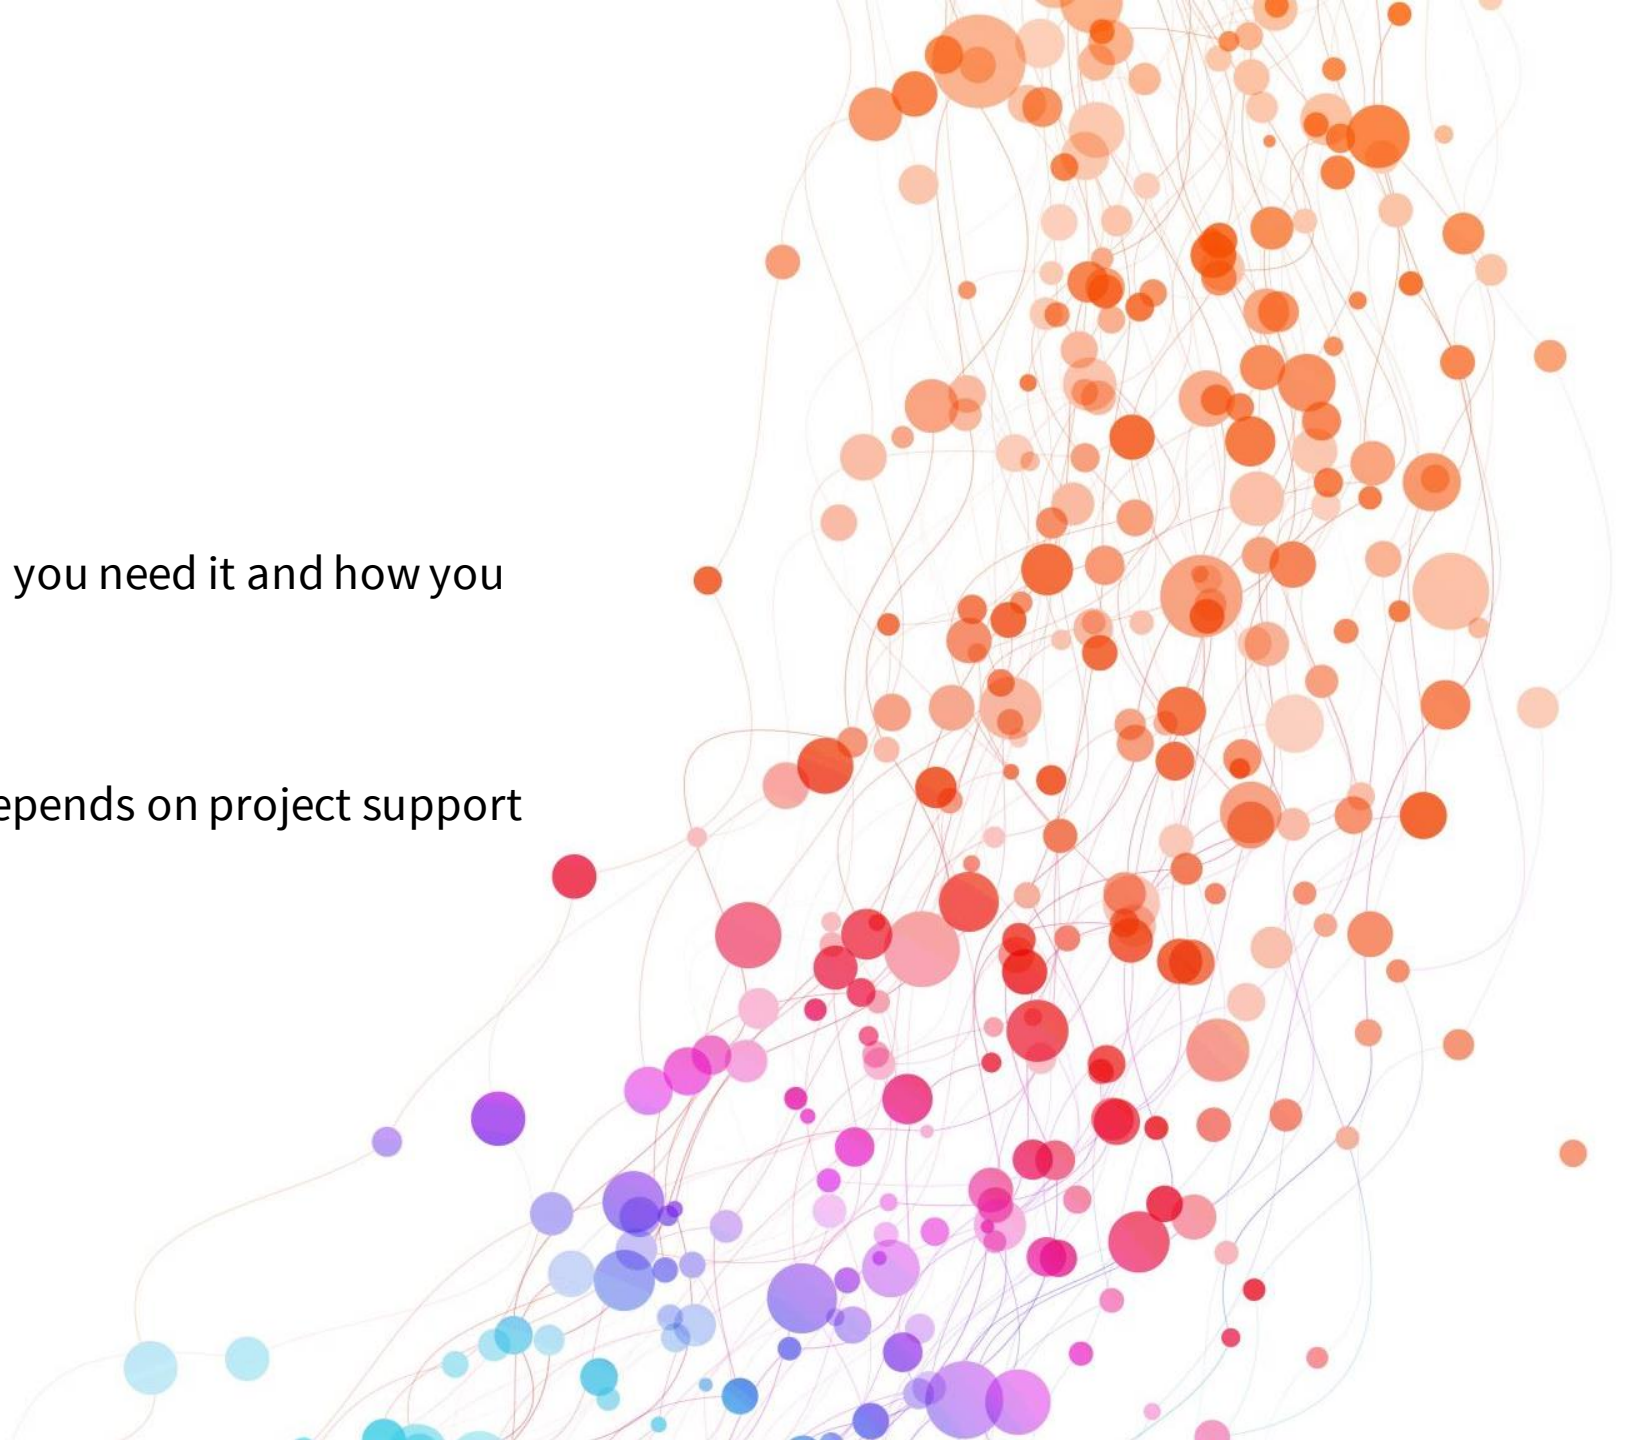

Consultant hours:  
Custom work, length of time depends on project support  
needed

## 4. Your Idea

Doing the work you need when you need it and how you need it

Consultant hours:  
Custom work, length of time depends on project support needed
