Words cannot express my appreciation for the help and advice Mrs. Haygood has provided. Her assistance is unparalleled and through her coaching and essay editing, I was accepted into a master's program and subsequently my #1 choice pharmacy school.

Christina Haygood provided a comprehensive program review that yielded substantive & copious recommendations for our university. Prior to visiting our campus, Christina had thoroughly familiarized her self with our data and Student Success trends which strengthen her inquiry and conversation with our faculty, staff, and students. Christina bolstered the program review findings by providing training for our staff in the areas of retention, advising, and student services. Most impressively, our academic leadership, faculty, and administrative leaders found great utility in her presentation, whereas we have used her discussion points and recommendations as a guide for current and future practice to improve Student Success & Completion.
