A Clarion Call to Earth Keepers, Star Seeds and Crystal Grid Masters

This coming July 31st of 2014, (a Thursday evening) a special showing of the Giant Selenite Crystals of Naica, Mexico will be presented to the Taos community. On Saturday, an all day workshop will be provided detailing the crystal grid's powerful connection with the earth and her evolving citizens. We are becoming members of a Galactic Society. This grid is especially activated on the Taos/Naica line affecting our human bodies revealing further awakening and the potential healing available to those who hear the call.

The Naica line is called the crystal string. The epicenter and origin of this crystal string begins deep in the earth where the largest crystals ever discovered on the planet have been found in Mexico. These giant crystals act as generators and transmitters of incoming information "code" and bring this data through lines connected to the crystal grid in and around earth. This line continues into Texas and New Mexico and on this line, Taos is in its proximity. This connection is noteworthy in that our intention set forth to heal our planet and our selves will have tremendous help by the amplification of our energy transmissions through the crystal grid and her 144 facets. Selenite is a powerful crystal for clearing and healing our emotional bodies. It is pure white light and known as Water Fire. It was lovingly created and birthed from the giant aquifer beneath New Mexico, Texas and Mexico. Tremendous heat birthed Gaia's giant crystals. So you see, we have much assistance through the Angelic Masters (Sacred Angels) at this potent location to bring in powerful healing energies to ourselves and to our planet, our beloved Gaia, mother earth.

CONNECTING WITH THE PLANETARY CRYSTAL GRID
PRESENTATION AND FULL DAY WORKSHOP ON THE FULL MOON IN
SARASOTA, FLORIDA

DATE AND TIME: JANUARY 16TH-18TH, 2014

This coming January 15-18th of 2014 is a great astrological, latitudinal and annual lineup demonstrating a most potent time indeed for us to gather. We are being called to bring our energies together in powerful ways to help heal ourselves and access the potent New Earth energies of earth's 144 facets of the crystal grid starting the year off in 2014. Those of you who are star-seeds will hear the call. The planetary star-gate system otherwise known as earth's chakra system is a 12 sphere and or/power node/sacred site map. Earth's 2nd planetary chakra is located none other than Sarasota, Florida with Siesta Key the main access portal. I was there in 2000 and 2001 activating what is referred to as the Grual point on the planet with many, many other

star-seeds at the time. Also, the degrees of the Sun in Capricorn and Moon in Leo will be in the potent activating degrees of 25, 26, and 27. This is the mark of the potent trigger date that correlates with the 144 facets of the Crystal Grid that only is triggered in the month of January. This is an inter-stellar program coming through the Pleiades star system. Each month has a different energy field with January being the only month in 12 that relates to the Earth's crystal grid.

This week, our special guest is Leela Hutchison, one of the very first explorers to enter the mysterious giant selenite crystal caves in Naica, Chihuahua, Mexico in January 2001. These crystals are the largest crystals discovered on earth and were only found in April of 2000. They are made from gypsum, not quartz, yet work together for amplifying and grounding information. For nine years her research has been about a mysterious connection between Gaia's inner earth crystals and a Galactic message to Star-seeds awakening on earth. This message she believes is about the evolution of the human species, evolving into Galactic Humans through the assistance of our Star-seed families. These are the same crystals that have now been featured in two documentaries produced by the National Geographic Channel with the second one being presented on cable television on 10-10-10 entitled "Into the Lost Crystals." The TV program will be aired several times this month and you can check to see when it is playing in your part of the country by visiting the website: natgeotv.com.
