

Bailey Briscoe

CAD & DESIGN TECHNOLOGY (STUDENT)

To enhance my degree in Industrial Design, I seek to expand my knowledge of CAD & engineering design principles. My work ethic and natural tendency seeks logical solutions to complex problems, leaning towards innovation and team collaboration to conceptualize and deliver project specific solutions.

EXPERIENCE

BAKER & DECORATOR SWEET PETITES KC Aug 2023- Current

While attending school, I am working in an entrepreneurial and small team environment, producing custom orders against deadlines for the corporate and private sectors. I am learning the importance of listening, design details, time management, and customer service.

GUEST ADVOCATE (TEAM MEMBER) TARGET CORP. Sept 2022- May 2023

Worked in a customer service and team environment that was specific to meeting daily goals and supporting customer satisfaction. I was trusted with daily bookkeeping and financial accountabilities.

UX & MARKET RESEARCH SPECIALIST COMMUNITYAMERICA CREDIT UNION Jan 2022- Aug 2022

Utilized various research methods to understand and resolve complex problems to improve user experience and interactions with digital products and services. Reported results to aid in decision-making.

INDUSTRIAL DESIGN MAKER SPACE MONITOR IOWA STATE UNIVERSITY May 2019- May 2021

Instructing and assisting peers and superiors regarding safety and technique in a machine shop environment.

OBJECTIVE

To grow with an organization that is committed to challenging the status of our environment, ultimately creating and delivering sustainable and impactful solutions for our planet and future generations.
