

# NHM London “Dippy Tour” Proposals, 2017. Updated May 2024.

## “Reflecting the Geology on our doorstep” - the “UK Geology Collection”.

Original research and proposals completed by Members of the “Museums Association” and the “Geological Curators Group”, as requested by Matt Ripley (NHM London Head of Retail), geology to comply with all the Museums Associations “Codes Of Ethics” and “Ethical Trading” directives, (especially ethically sourced and educational), along with the help of Dr Martin Munt’s “Ethical Fossil Policy” (NHM London Head of Collections / Director, Dinosaur Isle Museum). Full copies available on the MA and UKGP’s websites.

Please note that all prices are a guide price and can vary slightly, which are available from most reputable UK suppliers who comply with the Museum Associations “Ethical Trading” directives, the Museum Sector’s preferred choice being “Moussa”, the UK’s only current supplier personally recommended by Professor Richard Fortey and the NHM London Curatorial Team, although we can put you in touch with your own preferred or local supplier and arrange best prices if required. Our benefactors, all Members of the Geological Curators Group and Museums Association, have worked with every major ethical manufacturer, importer and wholesaler in the UK over the last 43 years, and have a “Price Promise” with all who comply with the Museums Associations “Codes of Ethics” to give the Museum & Heritage Sector the best prices available anywhere in the UK.
