# LETS GET IT ON

Sled Pull site work began April 25, 2021. Surface was recently conditioned with a Cohesion Solution. The track is ready for use. Tim Price is looking for strong riggs to challenge the dirt or each other to be THE KING of the HEAT.

## PICTURES FROM AROUND THE FIELD AND BUILD PROJECTS

Snake in Oval Track (no animals were injured)

new parking / setup area surface (oval Track)

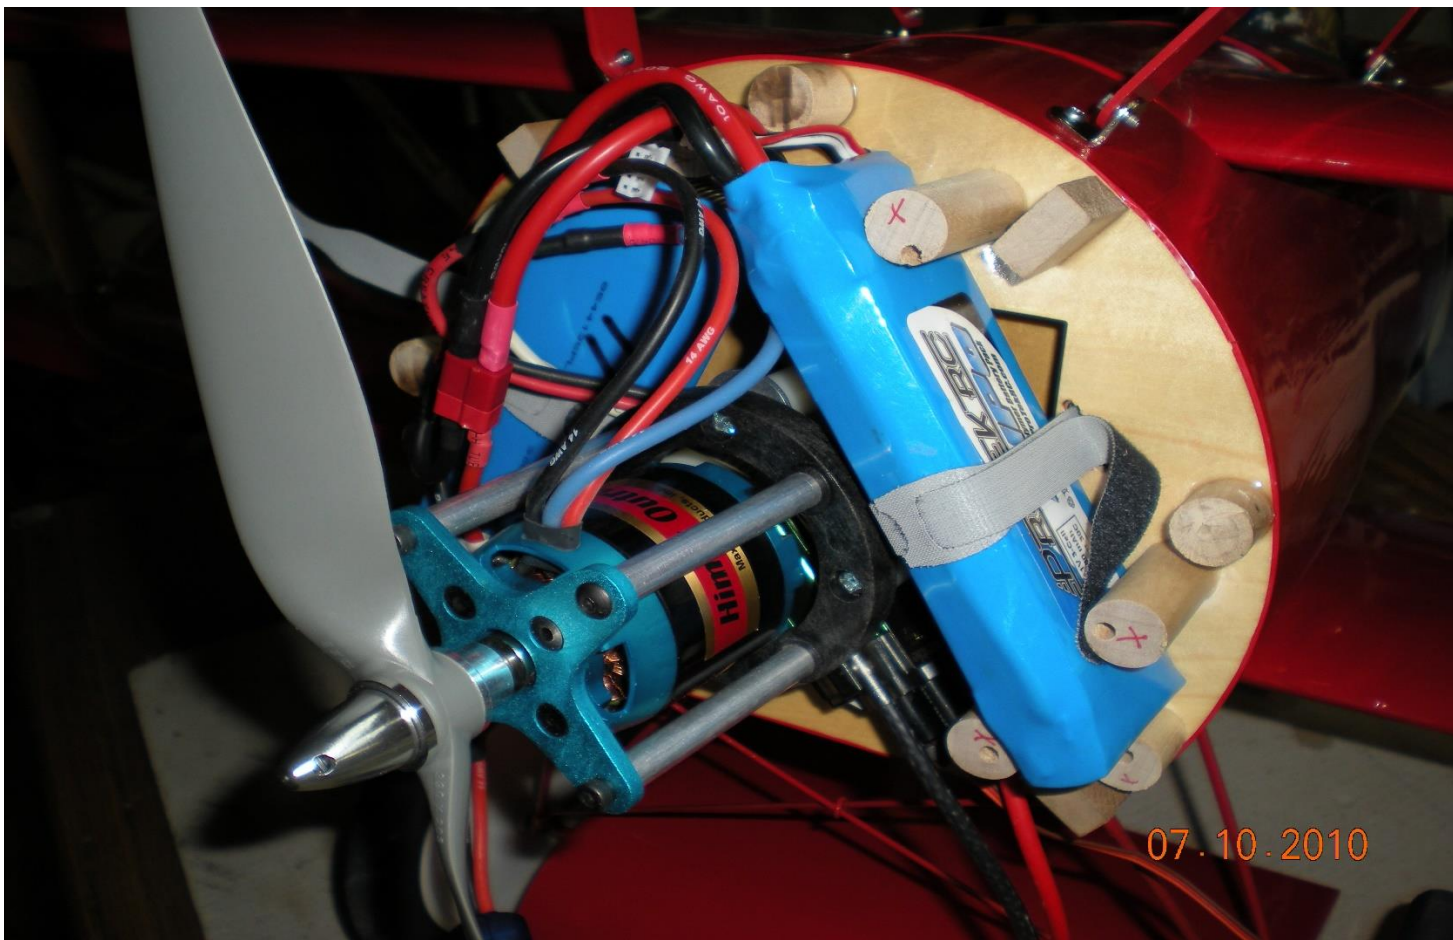

Race Course track getting a makeover

This ones fully assembled and ready for first startup and maybe first flight

Typical electric setup when weight is needed up front

My ground crew getting ready for takeoff in a Junkers JU-52 Tri Motor

Ready to release for taxi after engine startup 1994 Boeing field Seattle Wa.

Flight engineer working fuel calculations and ready for Taxi (Decades ago)
