Medication Directory | By Condition

Find potential prescription assistance by invisible, hidden or non-apparent condition

The Change Coalition | Informational directory • November 2026

IMPORTANT: This is a working referral directory, not a verified list of current Canadian program-covered drugs. Manufacturer affiliation does not establish assistance eligibility. Check each product's Canadian availability, approved use, provincial coverage and financial criteria with the provider. Some uses are off-label. **No medication should be started or changed based on this directory.**

Conditions are listed alphabetically. Multiple manufacturers or savings programs may appear for the same condition. Brand names may repeat because a manufacturer and a savings card can both be relevant.
