Our Client

UFP Packaging – Corrugated Division, Las Vegas, NV is a leading provider of corrugated packaging solutions across North America. Our newest flagship facility features advanced automation and state-of-the-art manufacturing technology designed to deliver exceptional quality, safety, and service.

Ideal Candidate

We are looking for a reliable, safety-conscious entry-level Maintenance Technician who prioritizes safe work practices in all tasks, including machine operation and lock-out/tag-out procedures. Performs routine preventative maintenance, inspects and repairs basic mechanical equipment, and follows OSHA standards. Comfortable using hand and power tools, reading basic machine schematics, and maintaining organized work areas. Communicates clearly with supervisors and team members, keeps accurate records, provides personal tools as required, and demonstrates strong attention to detail, organization, and a willingness to learn under direct supervision.

The Role

Maintenance Technician maintains, repairs, and installs equipment, machinery, and facilities under direct supervision. Maintains a variety of records; participates in special projects; and performs a variety of technical tasks relative to assigned areas of responsibility. This is the entry-level position for the Maintenance Technician series. You will:

- This position performs routine tasks and duties including performing scheduled preventative maintenance pm assigned by a supervisor

- Inspects, repairs, and maintains mechanical equipment and machinery using a variety of tools
- Knowledge of OSHA requirements as they pertain to daily activities
- Practices safety awareness in all actions, including machine operation and lock-out/tag-out procedures for all responsibilities
- Shares information with the supervisor and other team members in a manner that is understandable
- Possesses strong troubleshooting skills
- General knowledge of tools both hand tools and power tools
- Ability to provide personal tools as required
- Must be able to read and understand basic machine schematics with little guidance
- Highly organized with an emphasis on detail
- Organize parts and materials in the proper locations
- Lift, move, push, pull, carry and manipulate large and small materials weighing up to 20lbs frequently and up to 50lbs unaccompanied
- Display a positive team player approach supporting management objectives
- Able to follow directions well
- Display the willingness to learn
- Ability to work with other departments to ensure overall success
- Other duties as assigned

Minimum Qualifications

- High School graduate or GED required
- 2+ years of experience in the maintenance and repair of industrial equipment in a manufacturing environment
- At least 2 years corrugated facility maintenance experience
- Must possess a valid state driver's license
- Must have the ability to use the following equipment in a safe and effective manner: hydraulic equipment, pneumatic equipment, presses, cordless drills, clamps, and other misc. small tools
- Willing to learn how to properly use a variety of measuring equipment to a high level of accuracy of 0.001" to diagnose wear or damage in machine parts; such as digital and dial indicators, calipers, micrometers, levels, angle and depth gages, etc.
- Familiarity with related hand tools and troubleshooting equipment

Benefit Highlights

- Medical insurance
- Health savings account with company contribution

- Dental insurance
- Vision insurance
- Basic and voluntary life insurance
- Disability insurance
- 401(k) plan with company match
- Paid vacation and holidays
- Stock purchase program with employee discount
- Educational reimbursement
- Wellness programs and challenges
- Other supplemental benefits
