

ANNOUNCEMENT: June 15, 2017

California Coast Credit Union Selects Fusion CRS™ as its new Consolidated Delinquency Collections and Recovery Software Platform

We are very pleased to announce that **California Coast Credit Union** has selected **Fusion CRS™** as its collection and recovery software platform.

California Coast Credit Union chose Fusion CRS as its collection and recovery software solution primarily for the following reasons: 1) our consolidated, flexible, and very robust capabilities; 2) our willingness to work with them to configure Fusion CRS to meet their specific needs; 3) our outstanding reputation for providing high quality support and service; and 4) our standard **Symitar® Episys™** core processing integration capabilities. In addition, California Coast Credit Union will serve as the test site for the company's new **Fusion Risk Scoring** data analytics module. Testing for this powerful module is set to begin first quarter of 2018.

About California Coast Credit Union

California Coast Credit Union is the longest-serving credit union in San Diego County, headquartered in San Diego, California. As of Q2 of 2017, it had more than \$2.3 billion in assets, over 159,000 members, and 24 branch locations.
