Who We Are ?

- **MRise Group** is a multi-vertical execution and enablement platform headquartered in Ahmedabad, India.
- We operate at the intersection of **technology, investment enablement, workforce and employments, regulatory execution, and brand engagement.**
- Structured to support **investors, policymakers, institutional stakeholders and enterprises** across the full business lifecycle.
- Designed for **capital-intensive, policy-linked, and execution-critical projects.**
- Built on principles of **governance, accountability, and execution certainty.**

How MRise Group Enables Investment Execution

- **Investment Strategy & Structuring**
Supporting investors with opportunity evaluation, project structuring, market entry strategy, and regulatory alignment.
- **Regulatory Navigation & Approvals**
Coordinating government engagement, facilitating approvals, and ensuring statutory compliance across central and state frameworks.
- **Technology & Operational Enablement**
Deploying enterprise systems, infrastructure, and compliance frameworks for scalable operations.
- **Execution Governance & Risk Control**
Ensuring time-bound project execution, regulatory certainty, and long-term operational sustainability.

Core Business Verticals

- MRise NexStat – Investment enablement & regulatory compliance
- MRise Tech – Enterprise technology & digital transformation
- MRise NexAfar – Is a business solutions platform that connects talent, partnerships, and mobility to enable growth, innovation, and success.
- RK Vogue – Premium corporate gifting & brand engagement
- MJ Datamatics – Industrial training & workforce skill development
- MRise Foundation – Involved in CSR activities and social works.

Vision & Mission

- To become a trusted and diversified business services group and advisor to tomorrow's investors, enabling resilient organizations through strategic insight, operational excellence, disciplined execution, and sustainable long-term value creation.
- Our mission is to deliver strategic, reliable, and results-driven business services that empower investors and organizations to grow, adapt, and scale through strategic insights, innovative solutions, disciplined execution, and professional excellence, driving sustainable growth and long-term value creation.

MRise NexStat

- **Single-window investment enablement** from intent to commissioning
- **Company formation, licensing & statutory compliance** across state and central frameworks
- **Labor law, audit readiness & risk governance** for operational continuity
- **Government liaison & central and state project's approvals** including MoUs, land acquisitions, clearances, and inspections.
- **Policy & incentive facilitation** ensuring time-bound execution and capital protection

MRise Tech

- **ERP & Core Systems:** SAP, Microsoft Dynamics, Odoo, ERP Next, Tally, Zoho
- IT Infrastructure & Cloud, HRMS & Workforce Systems
- Finance & Governance Enablement. Industry 4.0 & Custom Solutions.
- Enterprise technology partner enabling **scalable, secure, and compliant operations.**
- Designed to support **investment-led growth, multi-location operations, and regulatory readiness**

MRise NexAfar

- MRise NexAfar helps organizations build high-performing teams through strategic recruitment, staffing, executive search, and workforce management solutions.
- We facilitate business collaborations, channel partnerships, and industry connections that support expansion, innovation, and long-term growth.
- Our mobility initiatives promote efficient, cost-effective, and sustainable transportation solutions, enhancing accessibility for businesses and communities.
- By connecting talent, businesses, and opportunities, MRise NexAfar creates a collaborative ecosystem that enables sustainable growth and lasting success.

RK Vogue

- **Premium corporate gifting platform** designed to strengthen business relationships
- **Client & stakeholder engagement programs** that build long-term goodwill and trust
- **Employee recognition & engagement solutions** aligned with retention and culture
- **Customized, brand-aligned merchandise enhancing corporate identity and recall**
- **Execution-driven delivery** with quality, timeliness, and brand consistency

MJ Datamatics

- Industry-oriented training programs bridging academic learning with real-world professional skills through practical, career-focused training.
- **Hands-on Learning with Real Project Exposure**, enabling participants to gain experience with **enterprise tools, live projects, and real business environments**.
- **Specialized Training in ERP, HRMS, and IT Infrastructure**, covering business workflows, employee lifecycle management, networking, system administration, and enterprise technology platforms.
- **Strategic Leadership on Demand:** Access experienced C-level executives (CEO, CFO, COO, CHRO, CTO) to provide strategic guidance and executive leadership without the cost of full-time hiring.

MRise Foundation

- CSR strategy and program design aligned with regulatory requirements and organizational values
- CSR project planning and implementation across education, healthcare, sustainability, and community development
- CSR compliance management, monitoring, and impact reporting
- Partnerships with NGOs, government bodies, and local communities for sustainable social impact

Industries We Enable

- Semiconductors & Electronics Manufacturing
- Electric Vehicles (EV), Automotive & Auto Ancillaries
- Aviation, Aerospace & Defence Manufacturing
- Renewable, Green Energy & Energy Storage
- Advanced Manufacturing & Industrial Parks
- IT, ITES & Digital Services
- Logistics, Warehousing & Supply Chain Infrastructure
- Pharmaceuticals, Healthcare & Life Sciences
- Food Processing & Agro-based Industries
- Education, Skill Development & Research Institutions

Why Gujarat for Semiconductors and Electronics Manufacturing ?

- **Strong Policy Support & Business-Friendly Governance:** Proactive semiconductor policies from the Government of Gujarat aligned with India's national semiconductor mission, enabling fast approvals, incentives, and investor-friendly regulations.
- **Strategic Infrastructure & Industrial Ecosystem:** Advanced industrial hubs such as Dholera Special Investment Region supported by strong ports, logistics networks, and manufacturing clusters that enable semiconductor supply chain development.
- **Reliable Utilities & Global Connectivity:** Stable power, water availability, and robust transport infrastructure including ports, airports, and freight corridors ensuring efficient global supply chain integration.
- **Skilled Talent & Major Investments:** Access to a strong engineering talent pool from institutes like Indian Institute of Technology Gandhinagar and Pandit Deendayal Energy University, along with major semiconductor investments by Tata Electronics and Micron Technology.

Why Gujarat for Electric Vehicles (EV), Automotive and Auto Ancillaries ?

- **Strong EV Policy** – Subsidies, incentives & EV adoption push
- **Established Auto Hub** – Presence of major OEMs & ecosystem.
- **Robust Ancillary Base** – Strong MSMEs & component supply chain
- **Logistics Advantage** – Ports (Mundra, Kandla) + strong connectivity
- **Reliable Power & Green Energy** – Solar & wind leadership
- **World-Class Infrastructure** – Sanand, Halol, Dholera industrial clusters.
- **Business-Friendly Environment** – Ease of doing business & fast approvals
- **Growing EV Ecosystem** – Expanding charging infrastructure
- **Strategic Location** – Gateway to domestic & global markets

Why Gujarat for Aviation, Aerospace & Defence Manufacturing ?

- **Strategic Location:** Western gateway with strong port & global connectivity
- **Policy Boost:** New **Aerospace & Defence Policy (2026)** underway.
- **Space Tech Leadership:** India's **first Space Tech Policy (2025–30)**.
- **Infrastructure:** Dholera Special Investment Region + upcoming international airport
- **Industrial Ecosystem:** Strong MSME & engineering manufacturing base.
- **Global Partnerships:** Airbus collaboration & Centre of Excellence
- **Defence Focus:** UAVs, anti-drone tech, defence electronics
- **Ease of Business:** Proactive support from Government of Gujarat

Why Gujarat for Renewable, Green Energy & Energy Storage ?

- Renewable Energy Leader - Among India's top states in solar & wind capacity, with large-scale solar parks like Charanka Solar Park.
- Strong Wind & Hybrid Potential - **Extensive coastline (~1,600 km)** enabling strong **onshore & offshore wind potential**, supporting large-scale **wind-solar hybrid projects**.
- Energy Storage & Battery Ecosystem - Emerging hub for **Battery Energy Storage Systems (BESS)** with strong investments in **Li-ion & advanced chemistry cell manufacturing**
- **Green Hydrogen Hub:** Key state driving India's green hydrogen mission with major investments by Adani Green Energy and Reliance Industries
- **Integrated Renewable Energy Hubs:** Dholera Special Investment Region & Kutch region emerging as **multi-energy clusters** with solar, wind, green hydrogen & energy storage integration
- Proactive, investor-friendly policies by Government of Gujarat offering incentives for renewable energy, energy storage & green manufacturing
- Export & Logistics Advantage - Seamless port connectivity (e.g., Mundra Port) enabling efficient export of **green hydrogen, ammonia & renewable equipment**.
- Strong engineering base supporting **EPC, manufacturing & O&M**

Why Gujarat for Advanced Manufacturing & Industrial Parks ?

- **Strong Policy Support** → Industrial Policy 2020 with sector-specific incentives including capital subsidy, land support, and tax benefits.
- **Presence of world-class smart industrial hubs like Dholera Special Investment Region and Gujarat International Finance Tec-City enabling integrated industrial, financial, and technology ecosystems**
- **Plug-and-Play Infrastructure** → Ready land, roads, utilities & common facilities enabling faster setup and lower costs
- **Strong Industrial Cluster Network** – Key hubs like Sanand, Halol, Dahej, Hazira & Mundra supporting auto, chemicals, engineering & electronics industries.
- **Robust Infrastructure & Logistics** → Ports (Mundra, Kandla), DFC & highways enable seamless domestic/export supply chains with reliable 24x7 power, gas, water, and competitive tariffs
- Strong talent pool & MSME base, supported by continuous skilling, fast approvals, transparent governance, and rising domestic & global investments driving rapid industrial growth.

Why Gujarat for IT, ITES & Digital Services ?

- Progressive IT/ITES Policy 2022–27 offering incentives on CAPEX, OPEX, and employment to drive sector growth.
- Gujarat International Finance Tec-City (GIFT City) as India's first IFSC is driving rapid growth in fintech, AI, and digital services ecosystem.
- Robust digital infrastructure and smart city initiatives, combined with lower costs than tier-1 cities, enable high ROI for IT/ITES companies.
- Strong talent pipeline backed by government-led skilling, startup support, and a rapidly growing ecosystem in SaaS, fintech, and digital innovation.
- Efficient business environment with fast approvals, stable governance, strong connectivity, and strategic location enabling global service delivery.

Why Gujarat for Logistics, Warehousing & Supply Chain Infrastructure ?

- Extensive coastline with major ports, integrated multi-modal connectivity, and Dedicated Freight Corridor ensuring seamless and efficient logistics movement.
- Handles a large share of India's cargo, supported by a strong and efficient import-export ecosystem.
- Integrated logistics hubs like Dholera SIR and port/highway-linked warehousing zones enabling efficient, large-scale supply chain operations.
- Strong industrial demand supported by key sectors, backed by proactive policies and incentives driving logistics and warehousing infrastructure growth.
- Efficient logistics ecosystem with 3PL & cold chain services, reduced costs and turnaround time, supported by fast approvals and investor-friendly governance.”

Why Gujarat for Pharmaceuticals, Healthcare & Life Sciences ?

- Strong policy support and incentives, combined with a dominant share in India's pharma production and presence of leading companies, position Gujarat as a key pharma and life sciences hub.
- Well-developed pharma clusters across Ahmedabad, Vadodara, Ankleshwar & Vapi with a strong API, formulations, and specialty chemicals ecosystem.
- Growing medical devices and biotech ecosystem supported by strong R&D, along with reliable infrastructure and pharma-focused industrial facilities.
- Strong export capability with global connectivity and regulatory compliance, alongside a rapidly expanding healthcare ecosystem driving demand for advanced medical solutions.
- Business-friendly environment with ease of doing business, fast approvals, and a proven track record in highly regulated industries.

Why Gujarat for Food Processing & Agro-based Industries ?

- Strong policy support combined with a diverse agricultural base, enabling value-added food processing through subsidies, cold chain infrastructure, and abundant raw material availability.
- Well-established food processing ecosystem with major players, strong dairy and packaged food industries, supported by food parks, cold chains, and cluster-based development.
- Strong export-oriented ecosystem with port connectivity, expanding cold chain and warehousing infrastructure, ensuring efficient logistics and reduced wastage.
- Strong rural ecosystem with skilled Agro-based workforce, MSME support, and close farmer-industry linkages.
- Business-friendly environment with ease of doing business, fast approvals, and investor-friendly policies

Why Gujarat for Education, Skill Development & Research Institutions ?

- Strong policy support with focus on education, skilling and innovation, backed by premier institutions and strong industry linkages enabling workforce readiness for emerging sectors.
- Strong talent attraction and retention supported by growing opportunities, along with advanced digital infrastructure enabling modern learning and emerging technologies.
- Expanding higher education and innovation ecosystem with industry-aligned curriculum, strong R&D support, and collaboration between academia, startups, and industry
- Business-friendly and stable environment with ease of setting up institutions and supportive governance.

Why MRise Group is the Right Partner

- **Single-window execution partner** across technology, investment enablement, compliance, and brand engagement.
- **Execution certainty over intent** — built to deliver timelines, governance, and risk control.
- **Government Interface Capability** enabling faster approvals, MoUs, and incentive realization.
- **Multi-sector, investment-led experience** across capital-intensive and policy-linked industries
- **Board-level discipline** focused on predictability, compliance, and long-term value creation

Management Team

- Founder, Global & Group CEO – Mr. **Malay Gandhi**
- Co-Founder & Global CFO – Mrs. **Riddhi Gandhi**
- Chief Advisor – Mr. **Jitendra Gandhi**

Leadership Philosophy

- **Execution over announcements** — outcomes define leadership, not intent.
- **Governance by design** with compliance, accountability, and transparency embedded.
- **Long-term partnership mindset** over transactional engagement.
- **Capital, policy, and people alignment** for sustainable growth.
- **Responsibility-led leadership** focused on trust, continuity, and impact
